Alfarata 2006

To the Class of 2006,

When you stepped onto campus for the first time four years ago, you knew so little about what or whom you would become. You didn't know how to find your profs' offices or your mailbox. You didn't understand how you would live on cafeteria food or how you would fit all of your possessions into a 12x15 cinder block box of a dorm room. You didn't know if you'd make friends or make the grades. And then slowly you found your way--around campus and toward your goals. You learned and you laughed. You pulled things together and pushed closer to your dreams. And you made it.

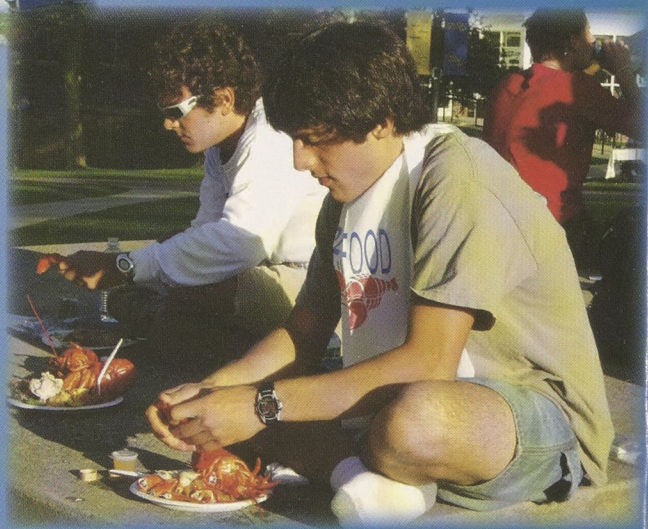

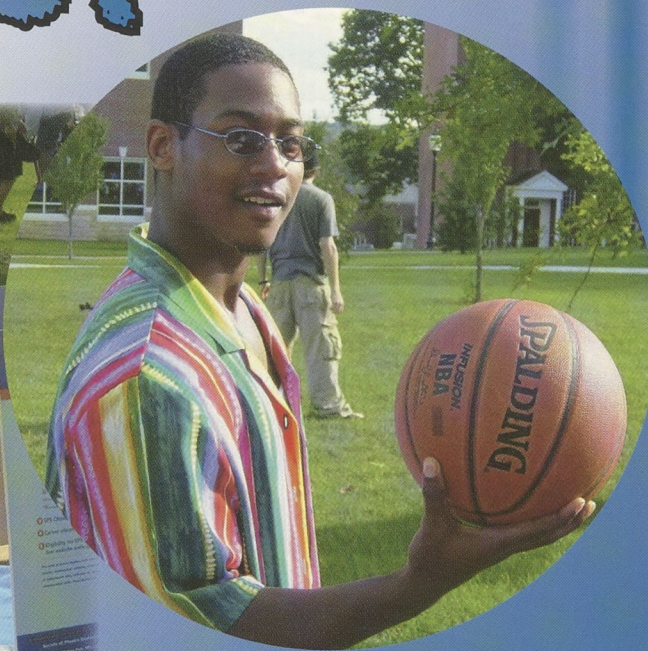

As you look back at the year, remember the people and places that helped you along your journey. Think back, and celebrate the beauty of the moments when you saw your future...

COMING INTO FOCUS

lobsterfest

Right: Junior Andy Papale thinks that Physics Club is a ball.

Far Right: We hate to disappoint M.J., president of Ball-a-holics, but the real M.J. can "palm" a basketball with his hand on *top* of the ball.

Above: For freshman Devin Conaway, victory has never been so sweet.

Middle: Sophomore Jason Hoover reminds us that keeping your socks clean isn't so important, so long as you have a clean shirt.

Right: Junior Zuzana Baranova and her brother demonstrate how Judo Club can help with sibling rivalry.

Above: While Rebecca Ray margarita.

Right: Sean a. Discussing b. Dissecting

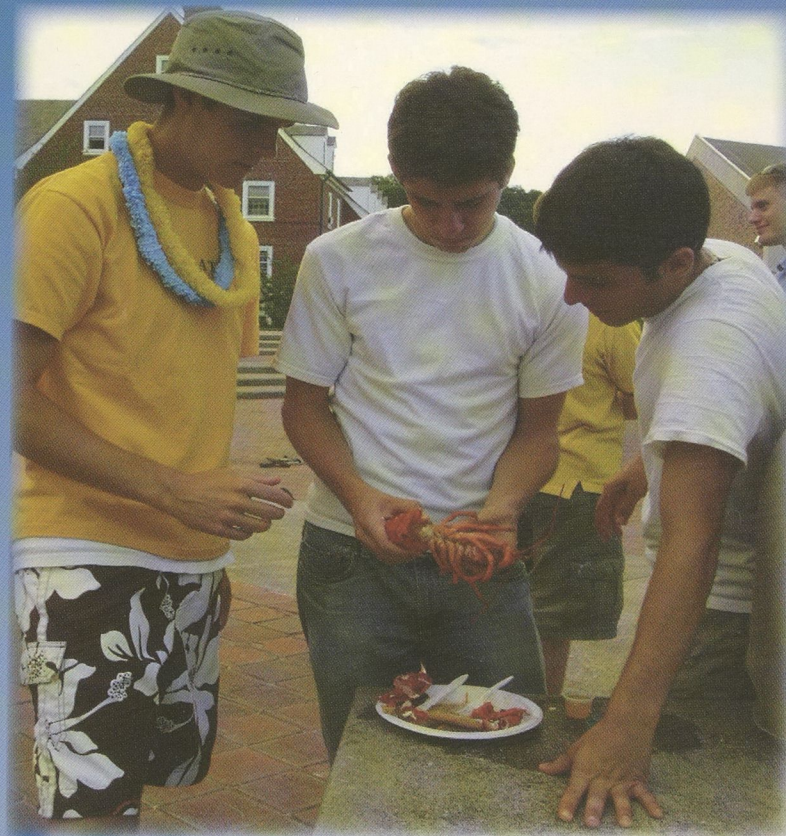

Left: Betsy Freeman *was* going to ask for steak; lobster will have to do.

Middle: Something funny is going on at the HOSA table, as Courtney Jones watches Michelle Nelson serve popcorn.

Below: Forget Sam Adams. Real men drink Mrs. Butterworth.

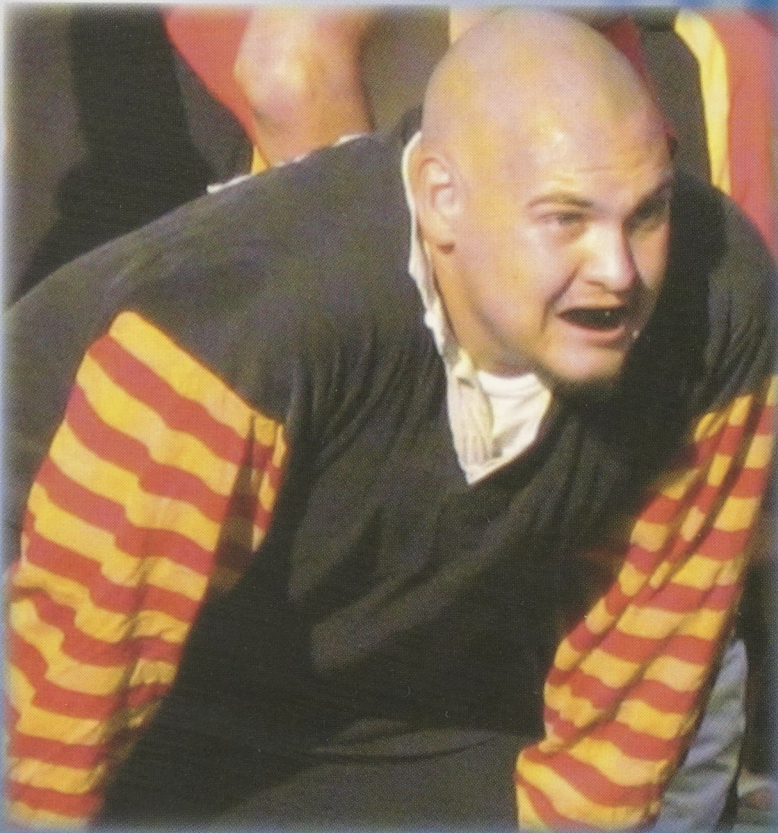

Above: While hosting festivities at the Phi Alpha table, junior Rebecca Raymond wonders why no one wanted to try a lobster margarita.

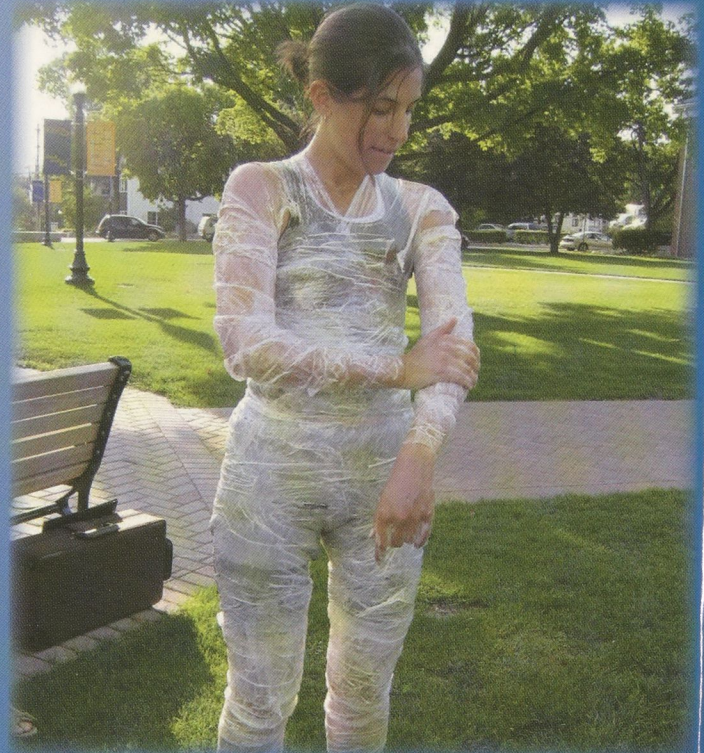

Right: Sean Rumery, Casey Chew and Eric Hoover are:
a. Discussing the best way to eat a lobster.
b. Dissecting a specimen for the Tri Beta Club.

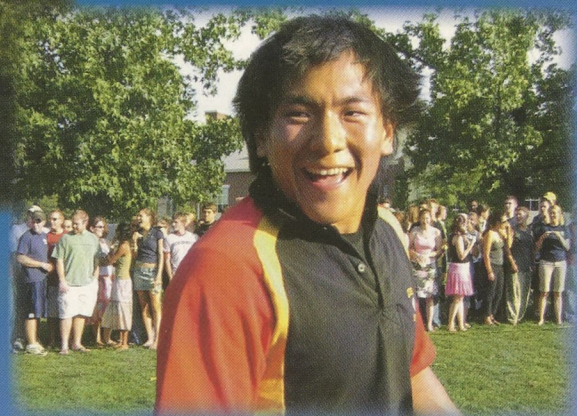

Left: He may look like Mr. Clean, but junior Steve Rensi is not above playing dirty.

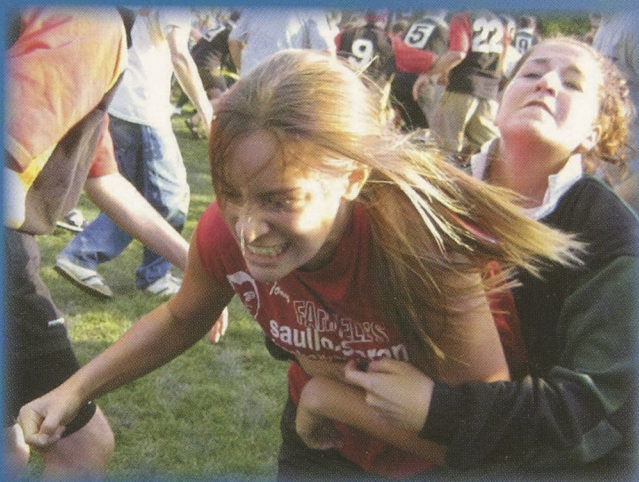

Below: Sophomore Amanda Partington tries a slick idea, or so she thought...*We* thought Saran Wrap was used to *stick* to things.

Above: No one is safe. Even freshman girls get mauled.
Middle: Junior Marty Balaban takes on a sumo stance to defend the Arch from the coming storm.
Right: Senior rugby captain Brenton Mitchell looks a little *too* eager to prey on the new freshman class of stormers.

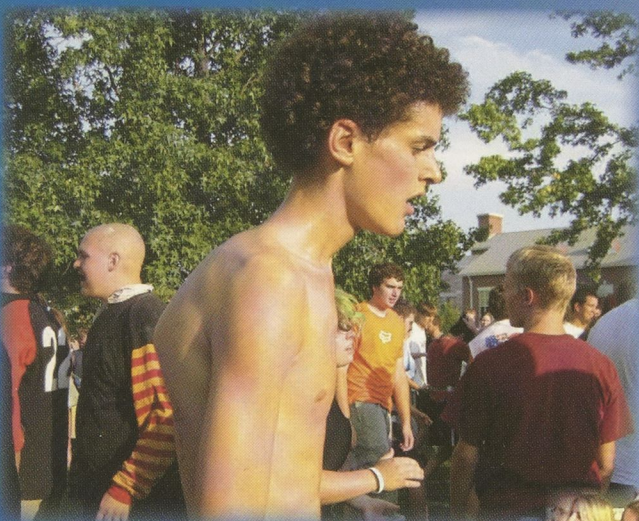

ve Rensi is not

ick to things.

Left: Tamara Wolfgang uses this freshman to practice her Heimlich Maneuver.

Middle: Freshman Peter McLean put up a valiant effort. But McLean needed to add some McPounds if he wanted to make it through the Arch.

Below: Magic at storming - Watch as we saw a freshman in half!

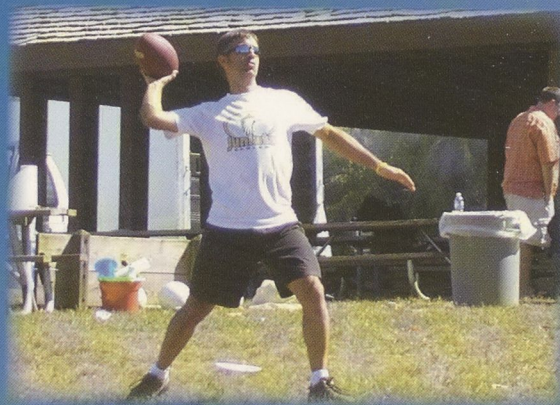

Left: An unwitting freshman gets de-cleated by one of the defenders.

Far Left: Sophomores Derek Morris and Taylor Forest got clobbered by the ruggers before anyone realized that they were there to help defend the Arch.

Storming of the Arch

Right: Dear Student: Catch first, dive second.
Middle: Who's next in line for the Heisman Trophy? Professor John Matter, of course! Maybe that's why the seniors forfeited the annual seniors vs. faculty football game...
Below: The freshmen had to tug against Juniata faculty AND a tree, thanks to professor Dave Widman's treachery.

Above: Unlike many other JC students, this canoeing crew made it back to shore safe and dry.

Left: Guys, this structure was designed for children between the ages of five and ten... Thankfully, the contractors left more than a little leeway in the design of this playground.

Mountain Day

Far Left: When it comes to tug-of-war, a pregnant professor Amy Mathur is "Pullin' for two!"

Left: Are you spiking the ball or auditioning for "Swan Lake?"

Above: All the power in junior Mo Khoshnevisan's right arm couldn't win the tug-of-war for his class. Maybe he should have used both hands!

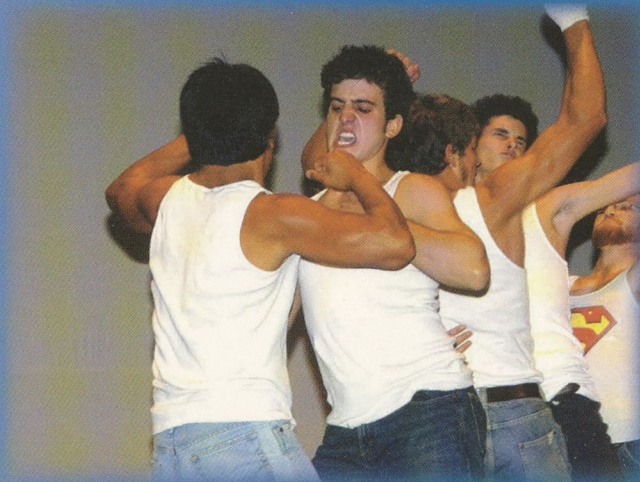

Middle: A fabulous foursome set the mood with music for Mountain Day.

Left: Thank goodness they were in the shallow end of Raystown Lake or this group may have drowned!

Right: Sophomore Adam Stanley enjoys the intro dance a little too much.

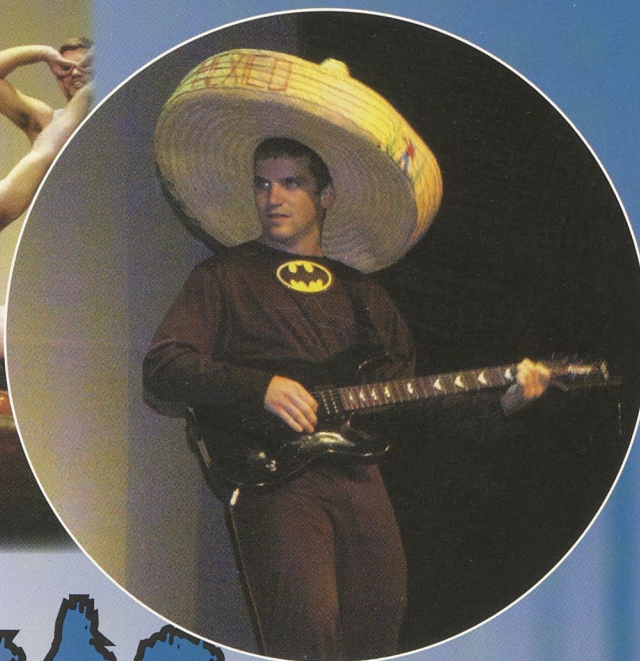

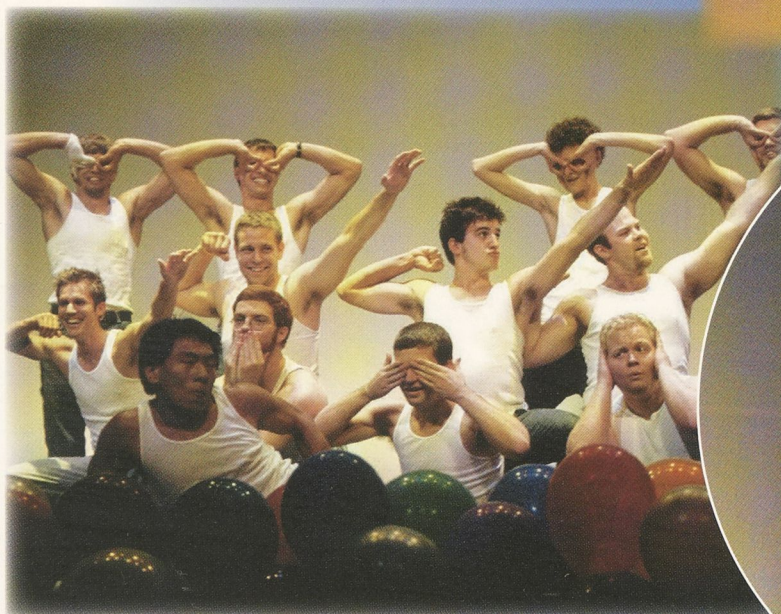

Middle: Changing up his normal break dancing routine, sophomore AJ Farman brings a little "Napoleon Dynamite" humor to the stage.

Below: "As soon as I am crowned Mr. Juniata, I will never let this moment happen again," thinks senior Max Stem as he witnesses Jon Hoey's stripping skills.

Right: They may all look like tough guys now, but by the end of the show Tommy was crying and Brenton was dancing with his mommy.

Far Right: Jim Serfass wanted to be a super hero, but was foiled by his super sized hat.

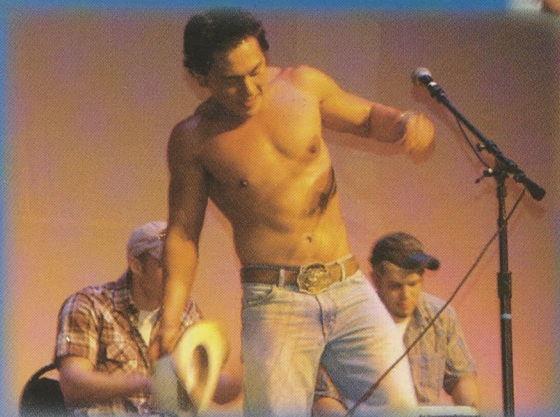

Mr. Juniata

Right: No "butts" about it, freshman Fred McNeal is a dunce.

Below: Are these crazy dancing skills or is freshman Peter McLean just trying to look at his butt without anyone noticing?

Above: Sophomore Tommy Biedeman wanted to make all the girls cry, but he wasn't immune to his own sappy love song.

Middle: Marty won't you blow, Marty won't you blow, Marty won't you blow your ho-or-orn...

Left: "She *thinks* my tractor's sexy," but I *know* it is," thinks senior Brenton Mitchell.

Homecoming

Right: Freshman Rachel Domoff knows that nothing goes better with colorful crafts than a *big* cup of coffee.

Far Right:

Above: Jess Clemens, Sara Long and the rest of the Juniata Jazz Ensemble help the Homecoming crowd get "In the Mood" for the day's festivities.

Middle: If only professors were as flexible with grades as cheerleader Jenna Eagle was at the Homecoming football game.

Right: Sophomore Aaron Shotts gives a perfect toast to the Juniata Eagles while marching in the Homecoming parade.

Above: Soph

Left: Junior Jon Hoey and sophomore Susan Peters swing to the beat of the Juniata Jazz Ensemble.

Middle: Senior Megan Allison didn't tell sophomore Ashley Hause that it will take days to wash off her face paint...

Below: Justin Kelly and Denise Bankert rule East's Homecoming-mobile with kindergarten style.

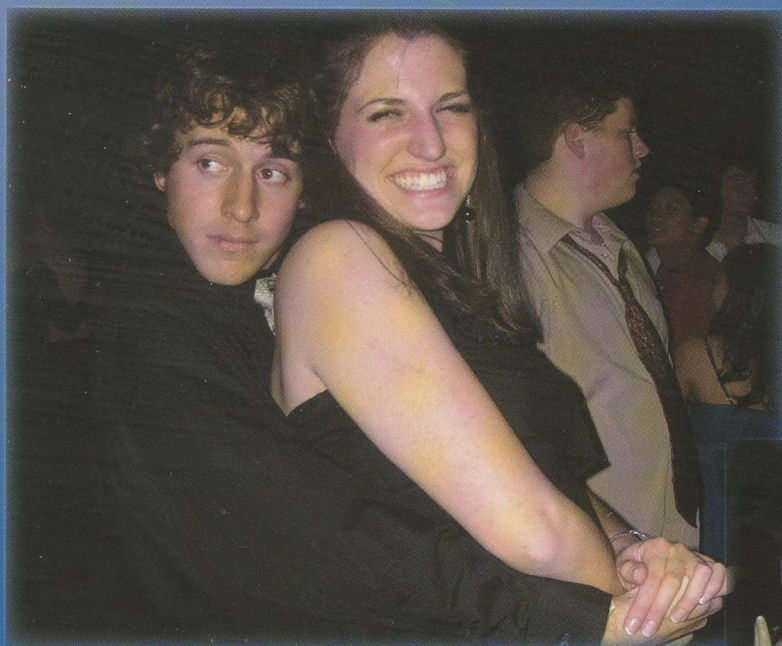

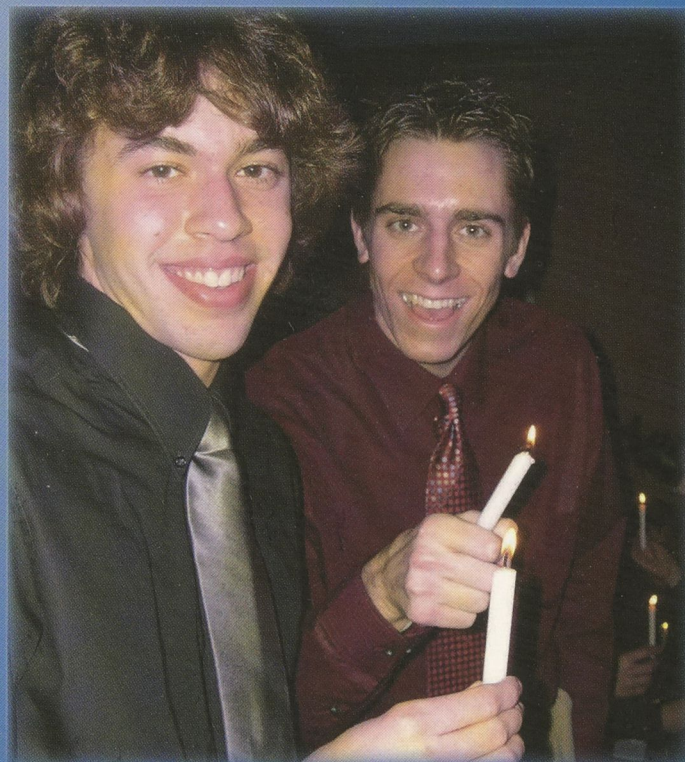

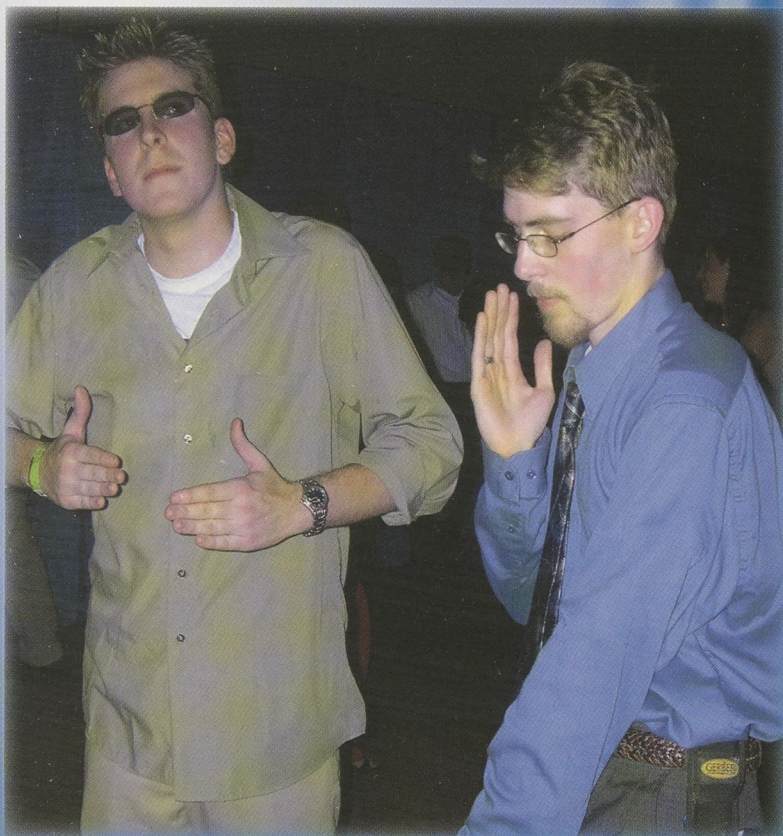

Above: Sophomore Peter Knepp shows Juniata alumni how to rock on his electric guitar!

Right: For the parade, Mission residents paid tribute to all JC traditions, so Brittany Barbera and Saskia Haase took the opportunity to make you think twice about eating lobster at Lobsterfest!

Left: Sophomores Brenton Forshey and Tyson Daniels do the robot...the most traditional of holiday dances.

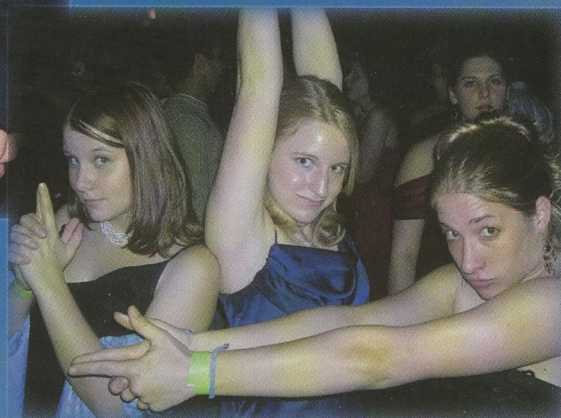

Below: "Fire. hehehe..." Perhaps the Madrigal committee should rethink the sense in giving college kids open flames.

Above: Erica Bennett is all smiles, but she can't see her date's roving eyes.

Middle: Serving up holiday cheer...with a side of chicken.

Right: Laura Sweltz, Bethany Wilson and Athena Gibble channel Charlie's Angels at the dance. That's straight shootin', ladies.

Left: Seniors Genna Welsh, Sara Smith, Maria Weinzierl and Julia Gwin--faces with smiles, dresses with straps...a summary of Madrigal fashion.

Middle: Boys, boys, boys...grabbing each other in inappropriate places scares the ladies so much that they can't even bear to look.

Below: Apparently freshman Chris Eissing didn't get the memo to wear black.

Far Left:
"Hey there, miss. Let's keep your hands where I can see them."

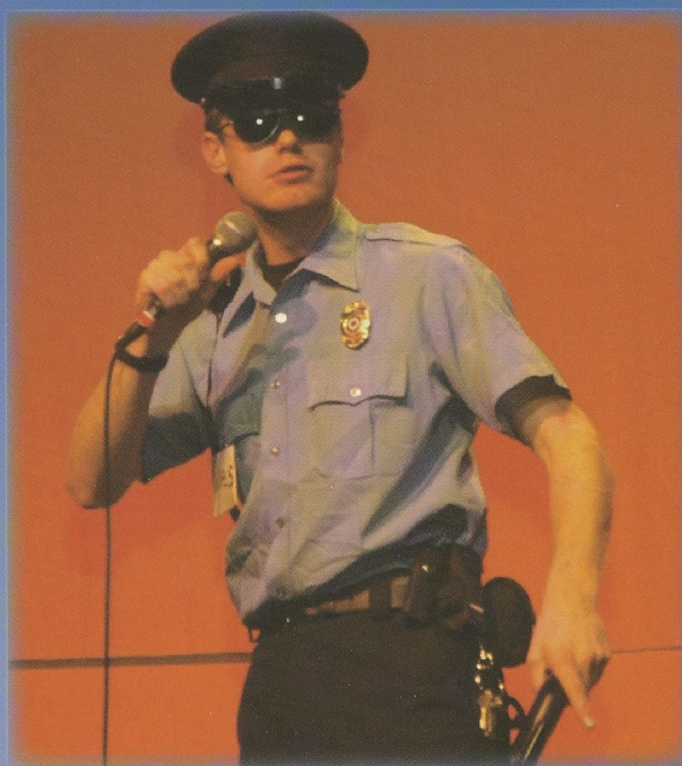

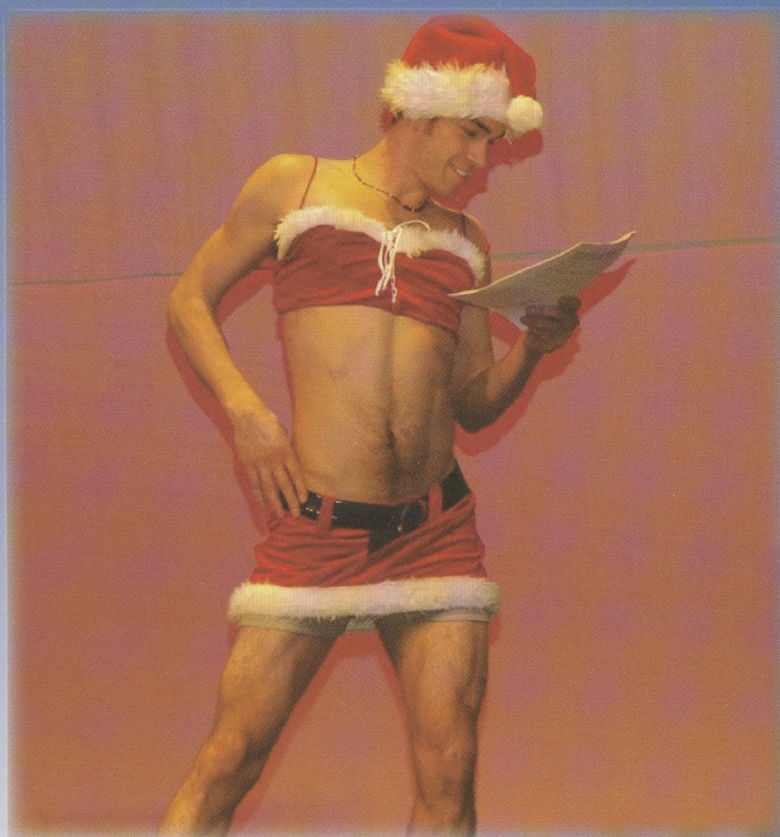

Left: It must have been hard to win Haley Rothrock as a date...how else do you think Cody Zong broke that wrist?

Madrigal

Right: Alison Earnhart is President Kepple's first moon-based Juniatian. Now *that's* diversity!

Middle: Lisa Detweiler must be thinking, "If this JC gig doesn't work out, I'll take my show on the road."

Below: Look out Sarah May Clarkson...freshman Amy Burch is trying to take your place.

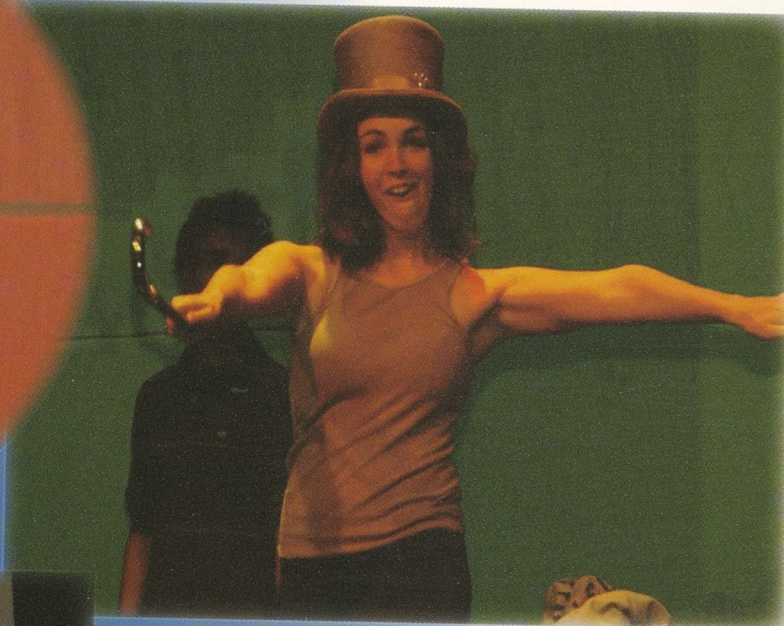

Above: Hey Mike Best, you're supposed to make fun of *Juniata* people not the Village People.

Left: Thanks to Mark Modak's impression of Mrs. Kepple's Mad-rigal performance, Christmas will never be viewed the same way.

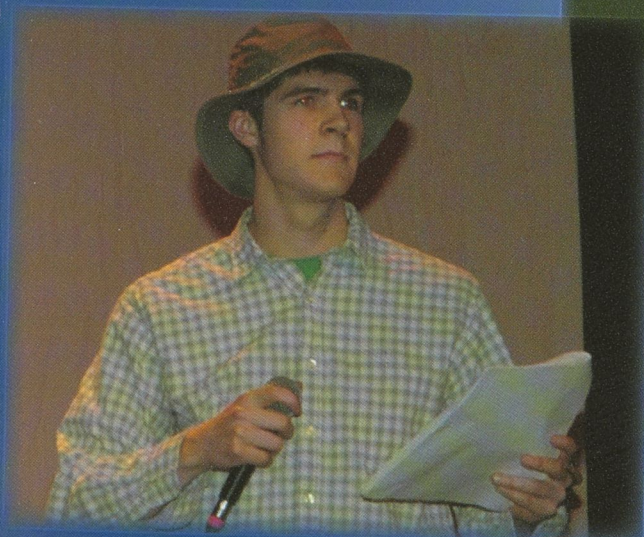

All Class Night

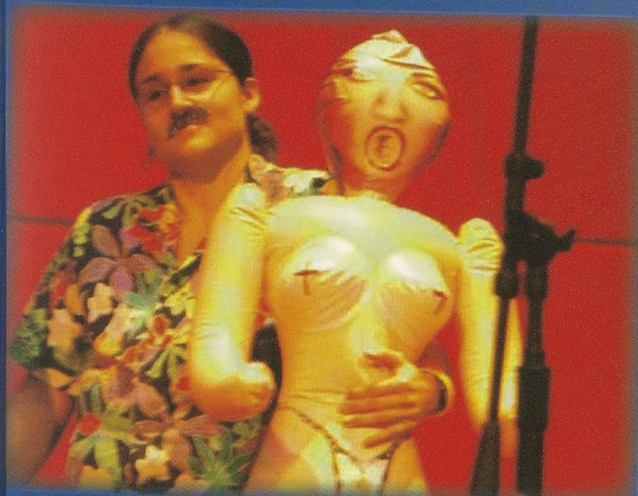

Far Left: Freshman Brittany Moyer asks, "Wait! Our skits were supposed to be funny?"

Right: You decide...Mrs. Peanut or a "Chorus Line" dancer?

Above: The senior kindergartners beat the Juniata football players at a game of "Red Light, Green Light."

Middle: Shawn Rumery holds a list of all the things participants weren't allowed to say. His face clearly shows that censors sucked the funny right out of ACN.

Left: Look! It's Professor Ron McLaughlin and his blow up doll.

Right: It looks like a little more than mud volleyball was being played during this game.

Middle: "What do you mean we're not allowed to have Indian mascots on campus? The Eagle won't mind. Wait, am I going to be sent to the Dean for this???"

Below: Hey, Erin! That's a pretty cheap shot! You were supposed to try to dunk Professor Pelkey when he was in the dunking booth.

Right: Birdie up!

Far Right: Apparently Career Services leader Darwin Kysor thinks it's okay to use his daughter as a human shield.

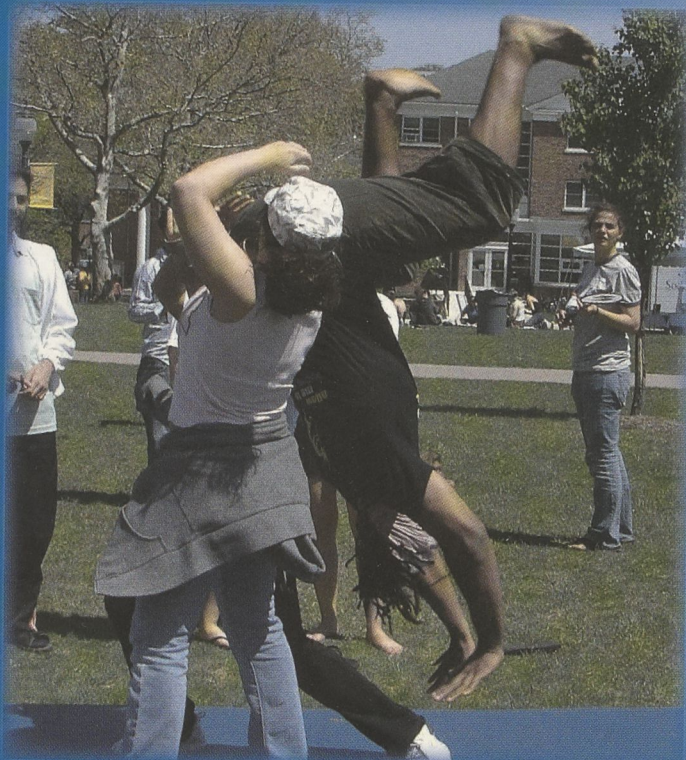

Springfest

Right: Hey, tall, dark and handsome, shoot first...ask questions later.

Below: Bottom's up!

Above: On such a beautiful day, these enthusiastic Kvasir-ists are having a little trouble selling books!

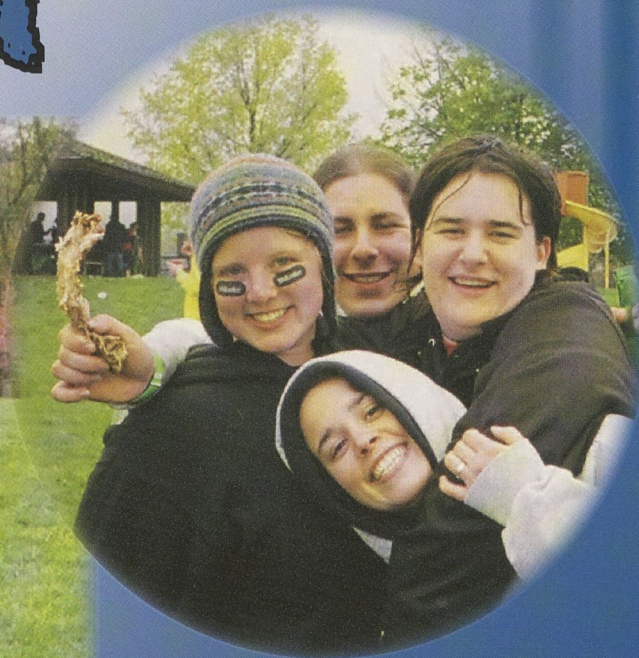

Middle: Is there a volleyball under all that mud?

Left: Even chemistry professors need to catch some rays! This one needs more rays than most.

Pig Roast

Right: As festive as the event itself is Paul Fleischer's pig snout hat. That cap made Paul the most appropriately attired roaster of all.

Far Right: Pig Roast '06, wet but not washed out.

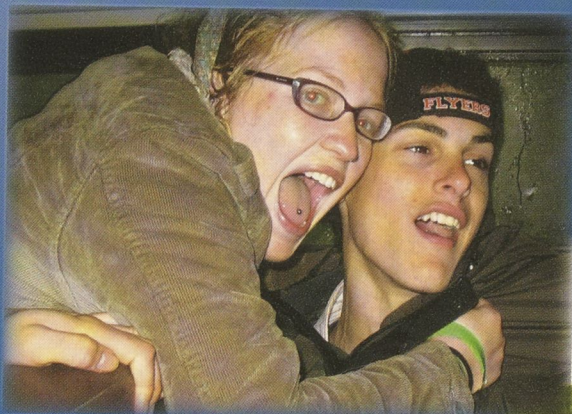

Above: What's wrong with this picture? Well, you usually bounce a ball off a pong table, not people.

Middle: Denise Bankert was a crowd favorite at many tents this year. When people asked her how much she drank, she said, "I just woke up this way!"

Right: Hannah Rauterkus is either really happy to see a friend, or she's using her pal as a human crutch.

Above: The rain meaning at Pig Roast.

Right: Glenn Rauterkus.

Left: Claire Fultz shares some senior wisdom..."Hold on Pete, this roast is going to be one wild ride!!!"

Middle: Leah Hammon, Liz Koval & Steve Parsons need alumnus Sean Scheler to keep the photographers (and beer snatchers) at bay.
Below: Mudsliding anyone?

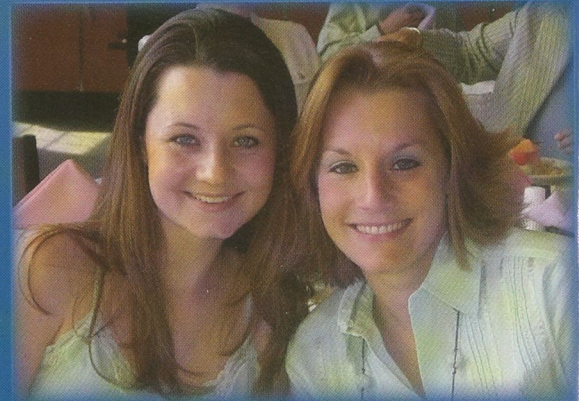

Above: The rainy weather made "getting trashed" take on a whole new meaning at Pig Roast this year.

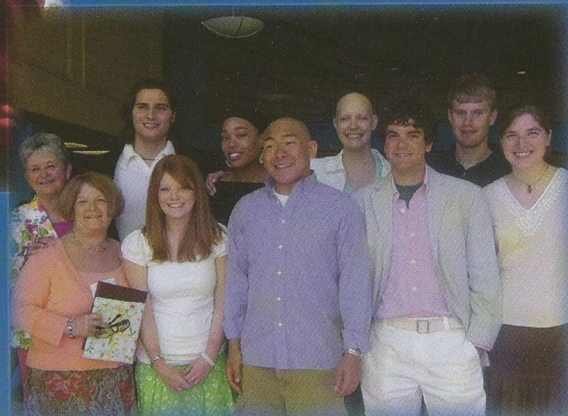

Right: Glenn Roth give his pal Matt Newman a leg up.

Left: Rejane Frederick soaks in the limelight...and sunlight...as she is named the junior class' Outstanding Woman of the Year.

Below: Nearing retirement after nearly 20 years at JC, the "ever-ornery" Shirley Powell's favorite quote became: "Frankly, my dear, I don't give a damn." But on this day, she was recognized as the Outstanding Staff Member of the the Year...because we all know that she does care. She cares a lot about many.

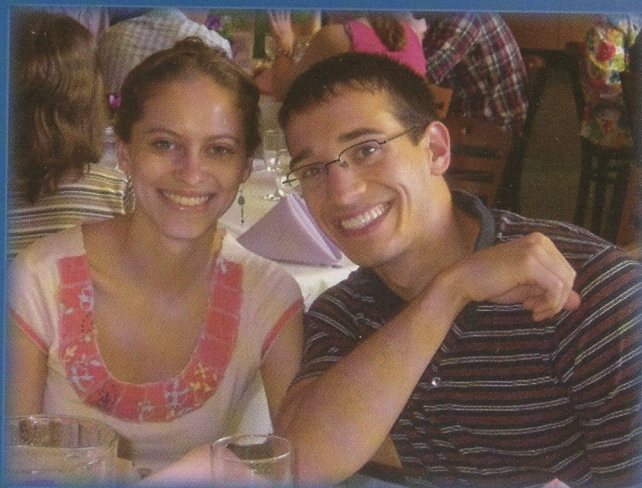

Above: Brenton Mitchell gives a shout-out to the crowd as he is recognized by fellow Juniatics as Senior Outstanding Male.
Middle: Marie Custer and Erin Trauger, two of the chairs of May Day, seem relieved that this traditional moment was a success!
Right: What an outstanding group.

Left: After winning the Outstanding Man of the Year two times in a row, and being named Mr. Juniata this year, Max Stem decided to sit this contest out with fellow senior Carrie Burkholder.

Middle: Erin Dodson, Freshman Outstanding Woman of the Year, received her award and a hug from Katie Sanborn...and a standing ovation from the crowd.

Below: Demetri Patitsas, student body president-elect, foreshadowed his upcoming regime's first order of business: making distracting yellow dorm lights white.

Left: Karin Brown watches her unsuspecting friend, Sarah Bay, open her Unsung Hero award.

Far Left: Senior Megan Allison, who was involved in more activities than we can list, definitely deserved her outstanding distinction.

May Day

COMING

This year the addition of six new clubs pushed the total number of Registered Student Organizations (RSO) on campus to more than eighty. Asian Sensations United, the Brethren Student Fellowship, along with the Racquetball, Russian, Gaming and Zoology clubs not only added to the amount of clubs on campus, but also to the amount of money student government budgeted for all RSOs. This year the RSOs' total budget was over \$120,000, not including money allotted to the Juniata Activities Board. Adding JAB's portion nearly doubles the amount of spending done this year by student-run organizations, a grand total of approximately \$210,000.

So where did all of that money go? Obviously much of it went toward sponsoring club events, but this year many clubs donated significant amounts of their club monies to charities and non-profit organizations. In the wake of national tragedies such as Hurricane Katrina, it seemed as if everyone on campus was in the giving spirit. However, their ways of helping others were as diverse as the clubs themselves.

Some clubs, like the Juniata River Rats men's rugby team, donated significant money to charities. President Brenton Mitchell said, "I feel that the club's participation in campus life continued to follow in the steps of those that have come before us by maintaining key Juniata traditions and continued to bring enthusiasm and commitment to the team and the larger community." That commitment to the larger community included the River Rats donating over \$500 to the Hurricane Katrina Relief Fund through the Red Cross, \$50 to the Huntingdon House, and \$50 for the Jimmy V fund. The Association of Christian Athletes also donated money to the Jimmy V fund through the Jimmy V 3-on-3 Basketball Tournament.

Raising money through entertainment, AWOL (All Ways of Loving) donated money to the Fight Apathy Tour and to the Vagina Monologues. The club also sponsored the wildly entertaining drag show which raised money for the Women's Help Center. Kvasir, the student-run literary magazine, also sponsored the Vagina Monologues to raise money for the Huntingdon House by selling their "Sex" issue during the VM performances. The Dance Ensemble raised \$800 for the Huntingdon House from their two performances. New RSO, Asian Sensations put on a fabulous fashion show, called "Global Threads" which raised money for Pakistan Disaster Relief.

Juniata Active Volunteers Association (JAVA) organized the Special Olympics, a Red Cross Blood drive and also helped with Juniata College's Relay for Life. As a result of the Relay for Life, JAVA and other RSOs raised over \$13,000 for the American Cancer Society. Co-president, Stacey Cremer, said "JAVA is a wonderful organization that helps bring major opportunities for volunteering....This year was amazing with the wonderful volunteer turn out at Special Olympics, and Relay for Life brought a new successful event to the club."

Some clubs did not donate money, but gave of their time through volunteer work, or provided much needed supplies for non-profit organizations. SPEAK, Juniata College's Communication club, collected used ink cartridges and cell phones to help Cash for Critters and the Huntingdon House. Phi Alpha planned "Make A Difference Day," which drew over 100 student volunteers and participants. Its members also volunteered at a soup kitchen, an animal shelter, Westminster Woods and Huntingdon Manor throughout the year.

Some clubs donated money, time and supplies to charities. Health Occupations Students of America (HOSA), gave to St. Jude's Children's Hospital, the Oncology Department at Janet Weis Children's Hospital at Geisinger, the National Alzheimer's Foundation and the victims of Hurricane Katrina. They also organized a wing-off at a women's volleyball game, monthly pet therapy sessions, a senior citizens' prom at Huntingdon Manor, Healthy Halloween, and volunteered at JC Memorial Hospital. "I feel our club...touched a wide array of people" said Brad Kissell, president of HOSA. Juniata Instructors of the Future (JIF) donated supply packages to Operation Iraqi Classroom Project that equipped students in Iraq with much needed educational tools. JIF also gave books to the JC Guatemala project and money to the Jimmy V Foundation.

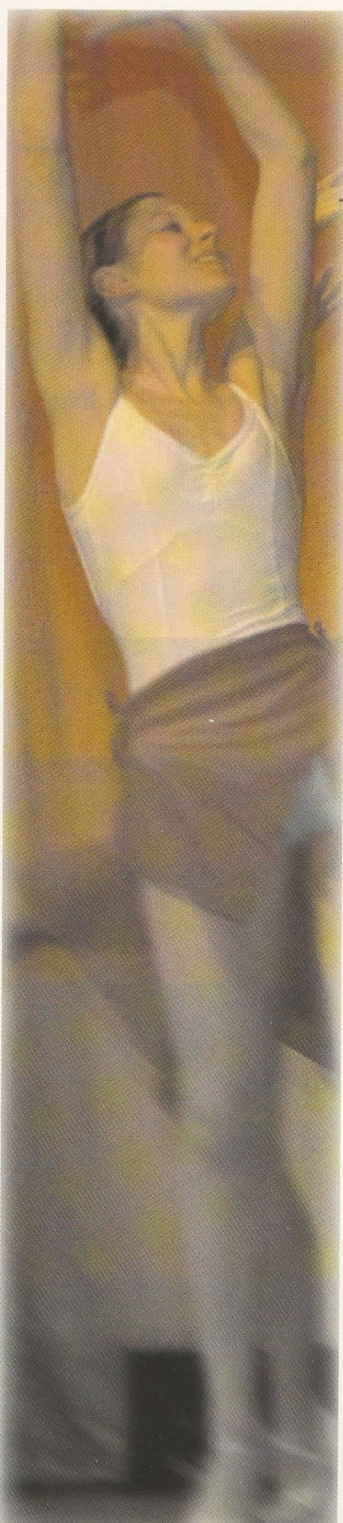

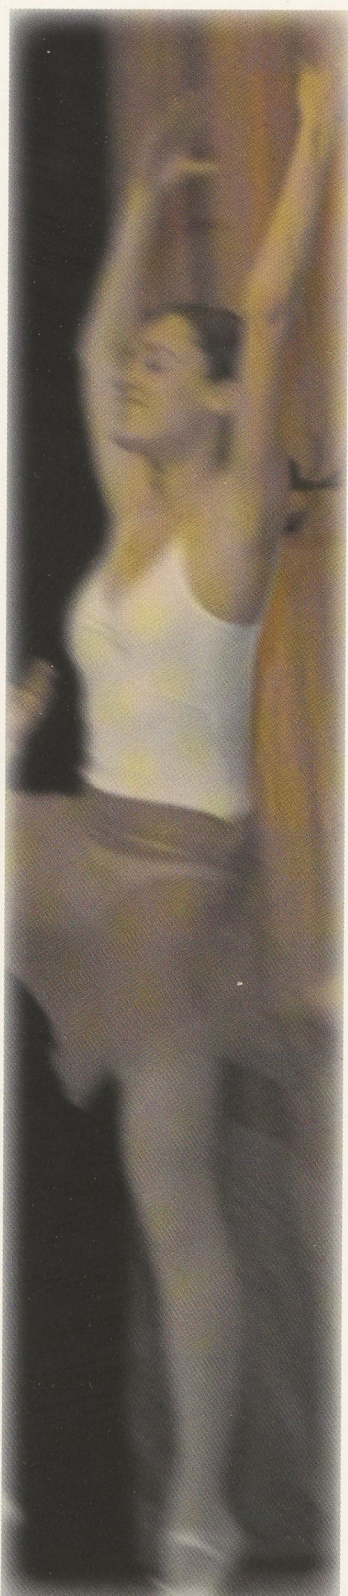

RSOs often teamed up to offer activities to campus and the communities. An up-and-coming RSO, the Equestrian Club, sponsored a horseback riding event for Big Brothers, Big Sisters. They had an egg hunt for charity as well. The Muslim Student Association collaborated with UCJC and Club International to host the extremely popular EID dinner. All proceeds from this event went to Pakistan Disaster Relief.

Art Alliance used creative ways to contribute to campus. The Alliance, headed by senior president Holly Brown, made significant contributions to student life by bringing a much-needed focus on art appreciation to campus. This club was one of the most active RSOs this year, sponsoring many new events, such as the extremely popular, "Post Secrets," which gave Juniatians a chance to come to Ellis Hall and decorate postcards with their most dark or amusing personal secrets. Art Alliance also contributed visual wonders to the Vagina Monologues. Through this club's efforts, students began to think twice about calling JC, "a science school."

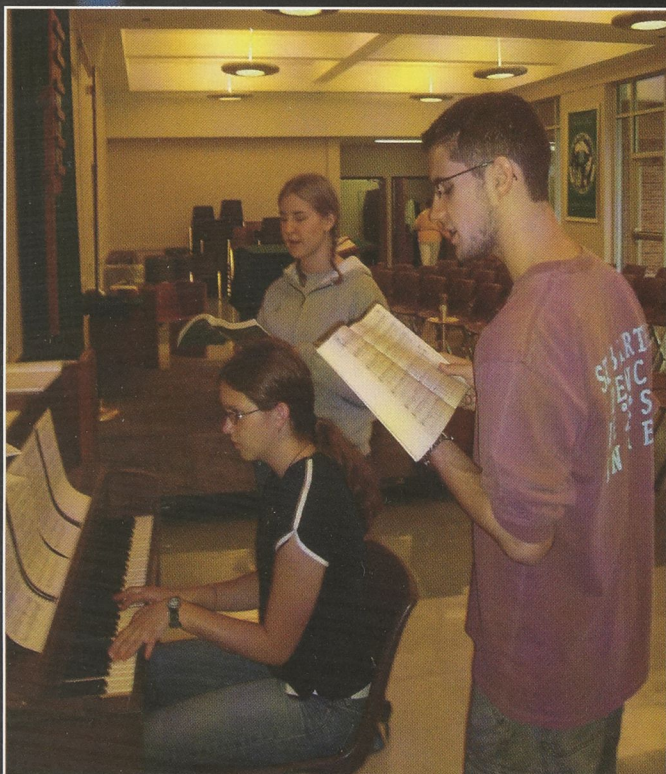

This year was just the beginning of a giving trend on pace to increase next year. Many clubs plan to give more of their time and money to charities and non-profit organizations, some as often as once per month. This new trend shows that Juniata students have found that when we focus on others, we see the beauty of the world more clearly.

Juniata's athletic teams experienced another year packed with championship games, shattered records and conference recognitions. Five of Juniata's athletic teams advanced to post-season play. Men and women's cross country teams achieved third place wins in the MAC championships, advancing them to the NCAA Mid-East Regional, where both teams attained top-ten finishes. Swimming put up a stellar performance at the conference championships, and despite the disadvantage of a small team, finished third. Men's tennis experienced one of the best seasons in the program's history with a school record 13 wins and 5 losses. The team advanced to Commonwealth postseason play for the first time, but suffered a 4-3 loss to Albright. Women's volleyball appeared in the NCAA Division III national title game for the second straight year. This time the team fell 3-2 to University of Wisconsin-Whitewater in a gutsy performance to end what many mistakenly considered a "rebuilding year." Men's volleyball brought home its third consecutive Molten Division III National Championship, becoming the second team in the history of that Championship to achieve three consecutive wins. In the EIVA quarterfinal, the men then fell to Division I Saint Francis. The baseball team also set a school record with 30 wins. The men reached the MAC postseason for the third year in a row, but fell short of the conference title, dropping two games to Elizabethtown during championship weekend. The 10 seniors led the baseball program to exactly 100 wins over the past four years. The men's and women's track and field teams posted respectable marks at the MAC outdoor championships, finishing fifth and fourth, respectively.

The overall win-loss record off all Juniata athletic teams for the 2005-2006 seasons totalled, 160-141-3.

Other than Eagles' victories in the post-season, various teams tied or broke school records, and received numerous honors. Although field hockey finished with an 8-11 record, the team posted a seven game winning streak in mid-season which established a new record for the longest winning streak for the program. Women's basketball improved its record from 5-19 in 2005 to 12-13 in 2006, tying the program record for the largest single-season turnaround. By winning ten games in the 2006, the softball team set the record for the longest stretch in program history with six-consecutive seasons of at least ten or more wins. Men's and women's soccer both earned team honors by being awarded the Team Academic Award from the National Soccer Coaches of America. The men received this award for the first time, and the women received the same award for the fourth time.

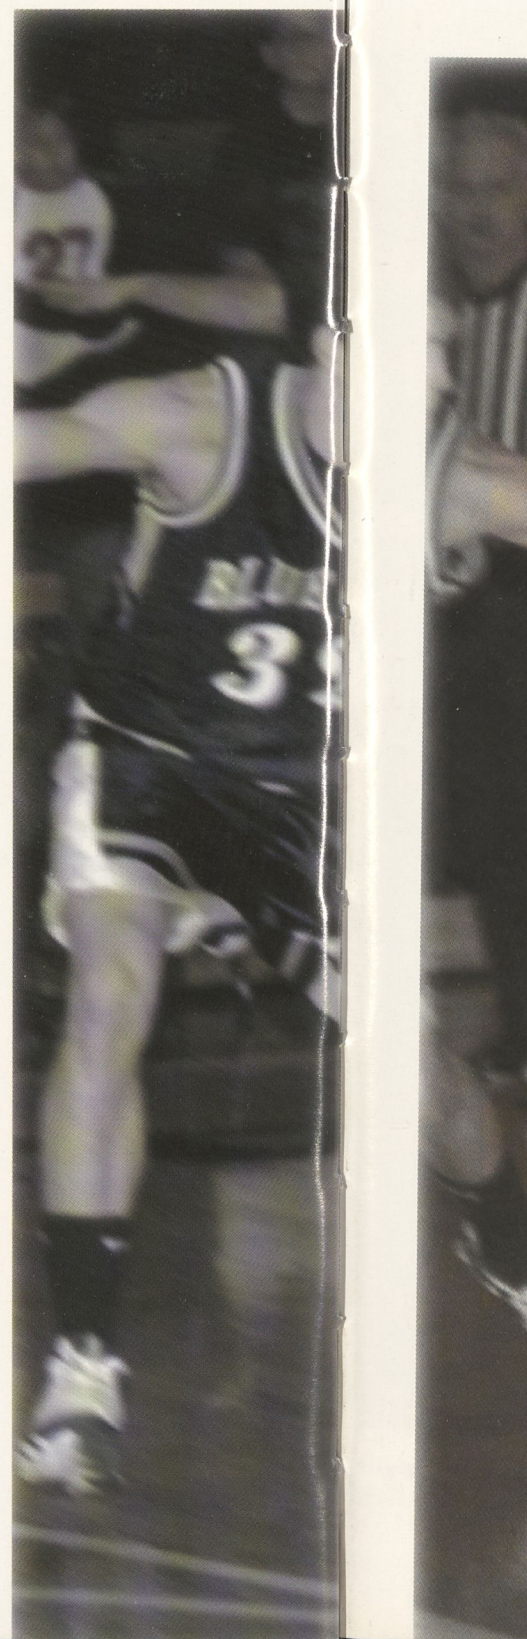

Many individual school records were also broken this year by various stand-out athletes. Jesse Leonard closed his football career as one of the most prolific punters in school history. He averaged 37.4 yards per punt for his career, a mark that ranks fifth all-time. Senior basketball player Kristen Kirk was the ninth player in JC history to score over 1,000 points during her career. Soccer player Nikki McLellan tied the record for the most goals in season with 12, and broke the record for the most assists in a season with 11. McLellan capped off her senior year by establishing a new career record of 32 goals and 25 assists. Swimmer Kim Dierolf broke a school record in the 1,650 meter freestyle, and split her time in the 1,000 meter, also a new school record. The track and field team essentially rewrote its entire books. In total, the team etched ten new marks into Juniata history.

Besides broken records, numerous athletes were awarded individual honors. Among the women were: Elise Zimmerman, who was selected for the 2005 Dartfish/NFHCA South Atlantic All-Region Team. Juniata volleyball players Katie Laucks, Stephanie Kines, Rachael Schatz and Amber Thomas were selected to the 2005 American Volleyball Coaches Association (AVCA) Division III All-America Team, as well as being recognized by AVCA Mid-Atlantic All-Region committee. Amber Thomas was also selected as the AVCA Division III Freshman of the Year. Freshman tennis player Ashley Andrews was voted the Conference Rookie of the Year. Katey Glunt was chosen as the MASCAC Scholar Athlete for women's cross country.

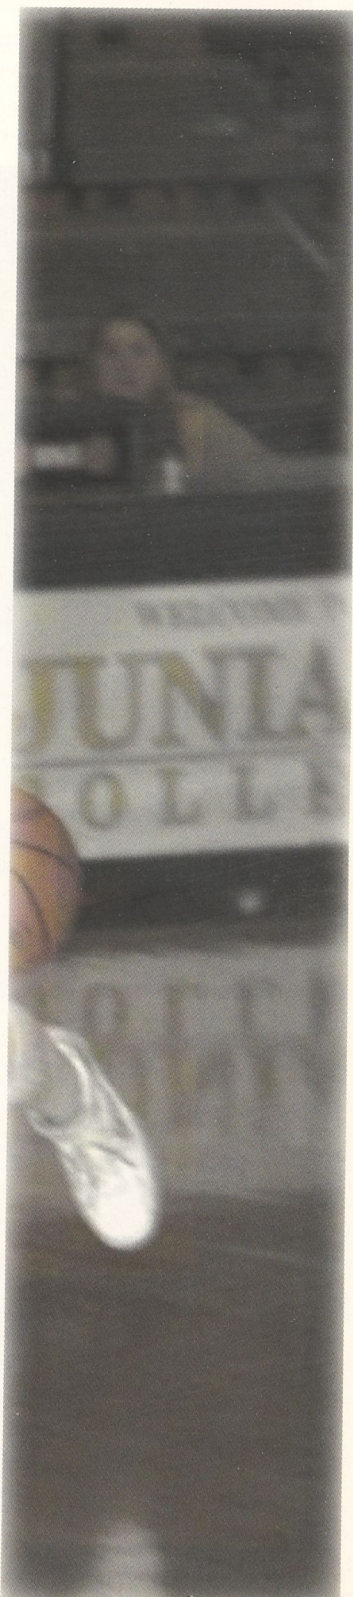

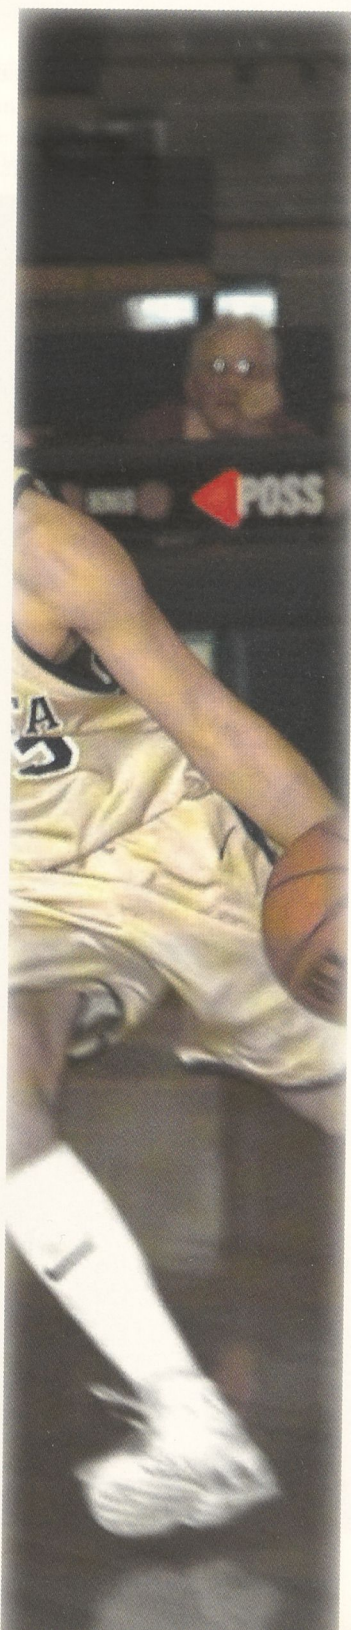

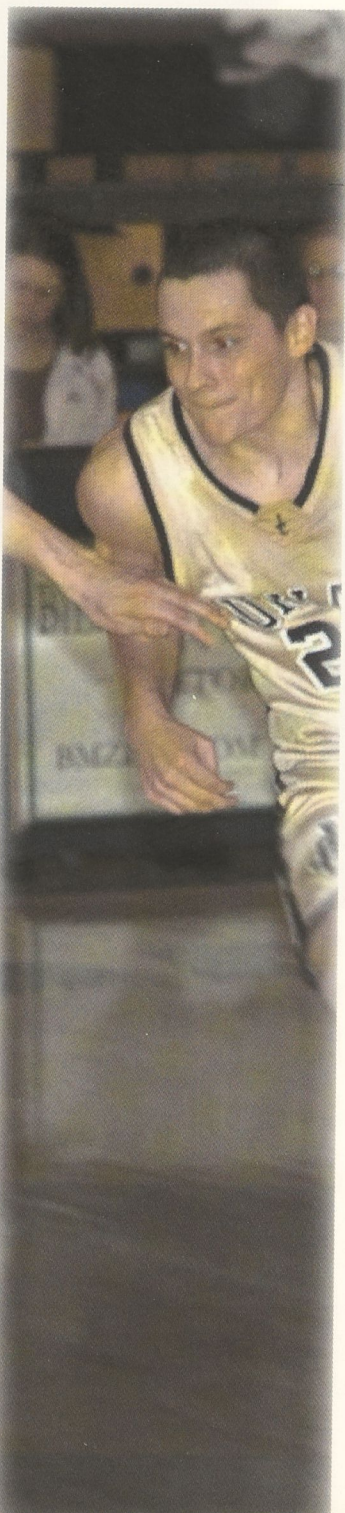

Among the honored men were: freshman tennis player Jonathan Skoner was voted Commonwealth Rookie of the year. Junior volleyball player, Nate Ocasio, was selected as the EIVA Division III Tournament Most Valuable Player. Jeremy Barndt was selected as the Division III National Championship tournament's Most Valuable Player. Jeremy Barndt and Nate Ocasio were also second-team All-EIVA choices and were the only two Division III players chosen for the All-East squad made up of primarily Division I players. Senior Jeff Gehring was named to ESPN's Magazine Academic All-District II College Division Men's Soccer Team.

In addition to the many accomplishments of these athletes, the following Eagles were named to the 2005-2006 Commonwealth All-Conference Teams in their various sports: tennis players Ashley Andrews and Caroline Weisser; field hockey players Elise Zimmerman, Cory Hamblet and Kim Wagner; swimmers Amy Hanson, Amy Sutherland and Kimberly Dierolf; women's soccer player Nikki McLellan; football punter Jesse Leonard; basketball guard Tommy McConnell; tennis players Neil Eicher, Brandon Long and Jonathan Skoner; and finally men's volleyball teammates Cordt Withum, Matt Fritz, Jeremy Barndt and Matt Werle.

The list of accomplishments would pale in comparison to the list of sacrifices Juniata athletes made to represent the blue and gold with class against some of the fiercest competition in all of Division III. From the stars to the role players, JC athletes gave every Eagles' fan reason to be proud in the 2005-2006 season.

Aces - Abby Leonard (65)

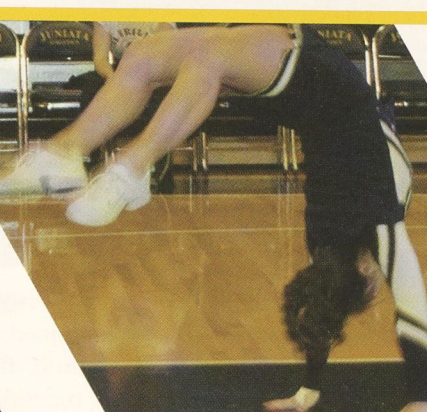

Although the cheerleaders did not compete this year, they still supported their fellow Eagles at football and basketball games, made spirit signs for all the teams, and of course threw candy into the locker rooms. The crowds were wowed by senior captain Tiffany Blue's tumbling passes, as well as the three-high stunts during timeouts.

Above: Spreading cheer while engulfed in glitter, senior Anna Elias imagines her pom-pom as a flame, and herself, the Statue of Liberty.

Right: These cheerleaders aren't trying to break down any walls...they are building them.

Below: Captain Ashley DeMauro really knows how to top things off.

Far Left: Although there's no tackling in basketball, senior Kara Rehner hopes that the players will stay in bounds and she on her feet.

Left: Then again, freshman, Natalie Boyce thinks the game looks better when she's on her hands.

Right: Senior captain Tiffany Blue, back from studying abroad in Australia, flips down under. Far out, mate!

Below: Freshman Rachel Kern, and the seniors behind her, jump for joy that the men won the game without going into double overtime...again.

Above: During this two-and-a-half split mount, freshman Nicole Staricek smiles sweetly, hoping she remembered to put on her bloomers.

Left: Heidi Shoemaker, lifted into a cupie at the final game, realizes that this is her last time for cupies, well, except for Valentine's Day.

2005-2006 was a year filled with academic exploration and accolades. After hours of labs, nights fueled by caffeine and a seemingly never-ending stream of deadlines, papers and exams, students may have questioned why they decided to challenge themselves by attending Juniata. 338 graduating seniors, who leave campus with jobs or graduate school acceptance letters in hand, and the long list of scholarship recipients on campus, can testify to the value of a Juniata education. Senior History and Religion POE Jude Harter said, "Juniata students are held to the highest standard. Sometimes it's hard to live up to, but it is worth it in the end."

The sciences continue to be a prominent feature of Juniata academics; several students in the area were recognized for their accomplishments. Senior biology POE Heather Hassel received an honorable mention for her research proposal to the National Science Foundation Research Fellowship Program and senior biology POE Brad Kissel received a \$1,000 scholarship from Pennsylvania HOSA. Junior pre-med student, Tanner Bartholow, received the prestigious American Physiological Society Undergraduate Research Fellowship and junior biology POE Kory Dawson participated in the Juniata College Vanderbilt Summer Scholarship program. Meara Kauffman, a junior chemistry POE, received the Barry M. Goldwater Scholarship. Amanda Cattoi and Evan McClennen were accepted into the Hershey Medical School Primary Care Summer Program.

Sophomore physics and math POE Justin Schultz received the Andrew Mutch Scholarship to study at the University of Edinboro for 2006-2007. He is the third JC student to win this national award in three years.

Juniata's own Society of Physics Students was recognized with the Outstanding Chapter Award for the phenomenal seventh straight year. The society, with help from the education department, sponsored its annual Physics Phun Night to introduce local elementary students to basic Physics concepts. At this event, physics students put a volunteer, assistant professor of mathematics, Richard Laverty, through the traditional "bed o' nails" main event without needing to call QRS-8.

Physics wasn't the only department that hosted major events. In April, the math department was honored to host the section meeting of the Mathematical Association of America. And the science departments, from biology to geology, once again collaborated to host the Pennsylvania state finals of the Science Olympiad. Those little brainiacs playing Frisbee on the lawns in front of the von Liebig today may just be the Juniataians blazing trails inside that monument in the future...

Students also received scholarships to continue their studies beyond JC. For example: senior English POE Stephen Knepper received the Davies Jackson scholarship to study literature at Cambridge University. Knepper finally decided to decline the scholarship to accept a full-ride to graduate school at the University of Virginia, one of the top ten literature programs in the United States. A senior geology POE, Caitlan Zlatos, was awarded a full-ride to the number one hydrogeology/hydrology program in America at the University of Arizona. And pre-med POE, Michael Vella, was awarded a \$120,000 scholarship to pay for medical school at the ivy league, University of Pennsylvania...just to name a few. That's how good Juniata students are--we have people throwing money at our brains from every direction.

At this year's Bailey Oratorical Contest, a talented field of students spoke to the topic of whom they would have chosen as the "Person of the Year for 2005." Junior International Political Economy POE Magda Sarnowska of Mazowieckie, Poland, won first place for her speech lauding the late Pope John Paul II.

Senior Shannon Callahan, who graduated with distinction in the Peace Studies Program, received the Baker Peace Prize and the Community Service Award. Junior History POE Erica Rhodes was awarded the National SHEAR/Mellon Undergraduate Research Fellow. Senior Christine Cutting also received the Community Service award.

Religion Professor Don Braxton led a group of students in the filming of the documentary *Judgment House*, which followed evangelical Christians in Philadelphia working on a judgment house, an alternative to a haunted house.

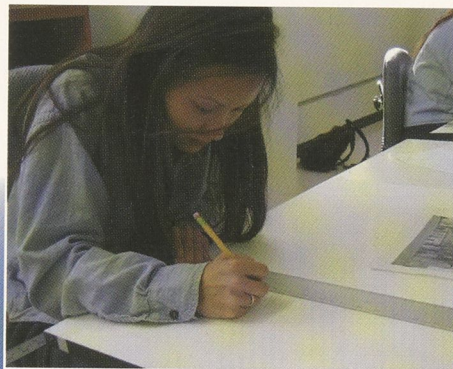

Seniors Christi Spackman and Gerry Miceli of the business department took first place in the two person competition at the Tau Pi Phi competition. At the National Phi Alpha Theta History Honors Society conference six history students gave presentation and three won awards.

Performing arts reached new heights with the opening of the Halbritter Center. At the spring convocation, the beautiful, state-of-the-art facility was jokingly referred to by retiring art professor Jack Troy as, "the Taj Mahal-britter." For the dedication of the new building students performed Shakespeare's *A Midsummer Night's Dream*. The college wind symphony also premiered the piece entitled "River of Sorrows" by composer Todd Goodman based on the book *Juniata River of Sorrows*. Juniata's Concert Choir toured Mexico over break with music from a variety of genres including classical, contemporary and spiritual. Seniors Jay Travato and Leah Yingling worked to organize and plan the trip.

The intense collaboration between professors and students in the Juniata community prepares the researchers, educators, healthcare professionals and world leaders of the future.

As a small campus, Juniata provides students with a great community feel. Every year, student life is busy with many activities, and this year has proved to be no exception.

Tussey and Terrace residents started out the school year with an intense shaving cream battle. This all-out-war is becoming somewhat of an informal tradition for the people who inhabit this dorm each year. It is a great way for students to become acquainted with their floor mates...well, if they can still recognize them by the end of the brawl. First floor TntT residents became so acquainted in the first semester that they actually started a club, deemed "Tussey Dominance," to show their dorm pride. Students of TntT also hosted a Halloween campfire, their own Winter Olympics, a Super Bowl party and a Mardi Gras bash. As in recent years, TntT is still known for its international flair. This year, the dorm housed students from countries including France, Spain, Japan and Saudi Arabia.

Their neighbors in Sunderland were active this year, too. Even though other students ride Sunderland a bit for being a dorm that doesn't even know its own name (campus dwellers still struggle with the North versus Sunderland naming debate) and for being a dorm without much action, resident Marty Balaban insists that, "there is a lot to do. You make many friends and new connections." The students in North, um, Sunderland, held a Thanksgiving dinner, a Secret Santa gift exchange and a breakfast during finals week of the fall semester to keep things hopping in the halls. Among the highlights of the annual Halloween bash was when the second floor guys made children cry with their scary haunted house hallway. We're not sure if the fact that they may have scarred young minds for life, helped them or hurt them in the final voting of Residential Life's decorating contest. Well, they *did* win, if that tells you anything about Res Life's tastes!

Sherwood Hall wasn't lacking in the entertainment department this year either. From the BBQ cook-out to the cereal bar, there was always something fun on the activities menu. All of the floors were usually shaking with music, giving the dorm a constant party feel--even in the middle of the afternoon in the middle of the week. When residents weren't eating or jamming, they made time for physical pursuits as well, like their fiercely intense water balloon battles. Freshman Aggie Kwon thinks that, "it is worth mentioning that Sherwood always gets the lowest net GPA, but this year we dodged that title." Absolutely worth mentioning, Aggie. Absolutely.

Across campus, the women of Leshner were having a blast. These self-proclaimed "Leshbians" were ecstatic about the summer renovations to the dorm's decaying bathrooms and worn out windows. They wore people out praising the new look to their dorm, marking possibly the first time in school history where ladies on campus were actually fighting to get into the female-only dorm. Who needs co-ed living arrangements when you can have a killer bathroom?! The Leshner ladies entertained themselves with pot-luck dinners to escape Baker. Other activities included mocktails and a bowling night. Good old Maude would be proud of her Leshner girls.

The students of South Hall had a very entertaining year. Hosting a 'pie day', the residents made pies which were available to the entire campus. A water balloon fight made a big splash at the end of the year. Pummeling people with high-quality H₂O was a favorite campus pastime in 2006. The IT floor still held court in South, making it the destination of choice when students' computers froze up or blew up during those 3 a.m. rushes to meet paper deadlines. The constant influx of outsiders made South a hopping place. According to Rob Bowser, "Even as a senior, it is great to live in a dorm where there are always new people around to meet."

Stuck in the middle of it all, Cloister residents were living it up. In the wing, there were video game competitions, a midnight breakfast and a March Madness party. The arch ladies endured the loud people walking by, but enjoyed Brandon Long and Brenton Mitchell's nightly serenades in the early fall. Senior Rachelle Luther laughed, recalling fire drills. "There was always someone that got caught outside in their bath towel." During Senior Week, the Cloister hosted the beer garden, an event where students 21 and older set up their beer cans to resemble a garden. So does the central location and crazy architecture give Cloister campus supremacy? As junior Brandon Long put it, "I have lived in both East and North, and Cloister has been the best to live in."

The odd dorm out, East, was as wild as ever. The parties were hot and packed as usual and the liquid flowed. Speaking of flowing liquid, late in the spring, security was called when a kiddie pool filled beer and foam overflowed, leaking into the room below. Said one student, "there was beer everywhere. When the JCPD showed up, everyone scattered." It must have been tough to hurry out with such a slippery floor.

When it comes to student life, Juniata students living in Pink, Mission, Hess or off-campus had more freedom and flexibility. But they also have to clean their own bathrooms. A serious trade-off to dorm life? We think.

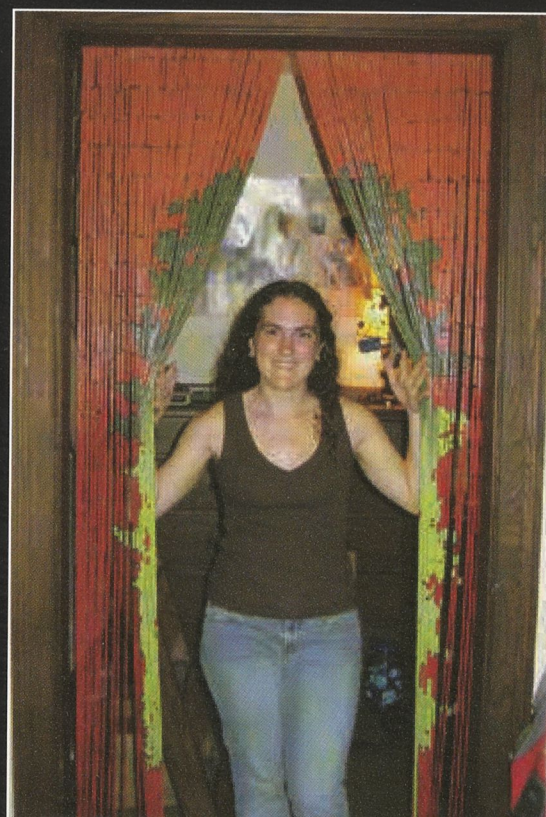

All in all Juniata students know how to live it up, no matter what their campus addresses.

COMING

We are seniors...and "we don't know how to put this, but we're kinda a big deal".... 2006 was the year that we finally got a class t-shirt, a class song and a motto. Sadly, this is also our last year at JC. This book is, naturally, dedicated to us. In it are our photographs and our memories. And oh, what memories they are...

Some will remember the chocolate fountain at this year's Homecoming weekend picnic, and watching the fireworks from the Cloister patio. Others will think about the traditions they never joined in on before, but decided to try this year. Dan Heinlein knew that he had to experience Mountain Day just once. His best memory was when he and Nick Trionfo started a competition by the lake to see who could take a step and slide the furthest. After a few rounds, Trionfo tackled Heinlein making him slide the furthest...right into the lake. Because it was so slippery, it took him a half hour to make his way back to dry land.

Nothing will dampen the spirit of the Class of 2006 though...even rainy weather on Pig Roast. Colleen Hughes said, "This year, Pig Roast became a whole weekend of festivities for the seniors. My friends and I started at 3:00 p.m. the day before, and kept going until the bar closed on Pig Roast Day."

For the seniors, the traditions will never die. In fact, over our four years, they have just kept getting bigger. Many of us won't soon forget how Matt Russell and a group of like-minded students challenged the powers-that-be who tried to censor the scandalous humor of an old tradition, All Class Night. Not to be denied their freedom of playful ridicule, Russell and company brought ACN back to its former glory.

The Juniata College Choir performances outside the new Halbritter Center were memorable and entertaining as well. Senior Jay Trovato not only planned a choir tour to his study abroad home in Mexico, but also arranged a Mexican song for the women in the choir to sing. During the tour's final concert in Xalapa, where Jay once studied abroad, Dr. Russ Shelley asked those in the audience who knew Jay to stand up. Seeing *that* many people standing in the front of the auditorium gave the women the support they needed to perform "Gloria" with great emotion and accuracy. It was a wonderful moment for both the choir and the audience.

During 2005-2006, students also found the newest form of procrastination, Facebook. Hailed by Juniatics everywhere as "an advanced stalkernet for the next generation," Facebook has been used as a way to avoid the dreaded Arch, by advertising for events, looking up your friends (on and off campus) and even joining groups of other Juniatics. These groups cover a wide range of subjects from "People Who Love Donna," to "Baker Makes My Insides Hurt." From the Office Space inspired: "Someone Give Ronny McLaughlin His Stapler Back" group, to international student inspired: "I'm the 3% of Diversity at Juniata" group, Facebook covered everyone and anyone at Juniata. Our personal Juniata favorites include the groups known as: "Death to So-dexho," "Andy Belser &/or Chad Herzog Own My Soul," "I'm a Stalkernet Addict," "Long Live the Poopfinger," and "All My Facebook Friends From Other Schools Only Have One Friend From Juniata." One thing is certain, thanks to Facebook, we are more connected to each other and alumni this year than any other.

Hurricane Katrina made a huge mark on the Gulf region this year, and left a mark on our senior year as well. Juniatics gathered supplies and food and sent donations to the southern states in hopes that we could help. Many used their spring breaks to do relief work. They cleaned out drowned homes and helped families get their heads back above water.

Beyond the tragedy though, there was much love in the air. Many of our classmates got engaged, and a few, like Marie Howe, even married. Perhaps the most memorable engagement was Shane Fuhrman's proposal to alumni Gretchen Stull at the second Those Guys concert. Fuhrman, wearing a dress and wielding a ring from Walt Disney World, ran into the crowd, found Stull, and dropped to one knee. She said yes, and he gave her a real diamond ring instead of the Disney one.

While the big events will hold a special place in our memories of Juniata, there are also the common, everyday events worth remembering. Brittany Barbera laughed when she thought of Wednesday nights in the "pot shop." It was always crowded on humpday evenings because pottery student's assignments were due on Thursdays. One particular Wednesday, a popular oldie came on the radio, and the entire room broke out in song and dance. "It was like being in a musical," said Barbera.

Erin Trauger loved Wednesdays as a musical midweek break too. Trauger, along with many other students, escaped to Peggy's Place for karaoke night. While karaoke is humorous enough, adding Father Dave, the Juniata College priest, to the bar scene, makes it a senior year memory Trauger will always remember.

On the way home from Memories (the new J's), a usual stop for many seniors was a friend's apartment along the walk home. Dan Heinlein often gets a visit from Keith Sheridan, wondering why he's asleep already at 1 a.m. on a Tuesday night. Those classes always seemed to get in the way...

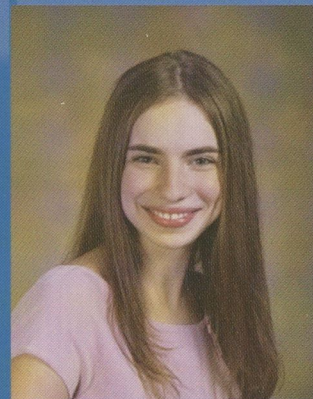

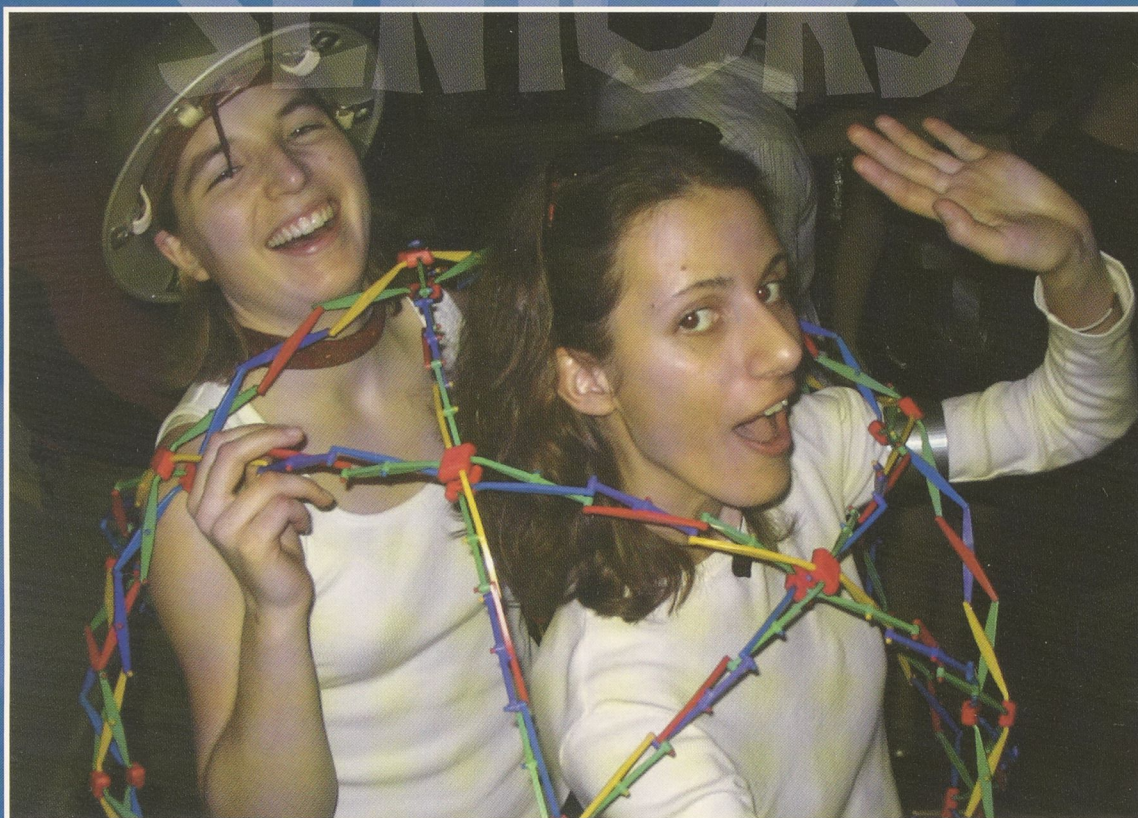

In the end seniors, we had a great year. Sure the road was bumpy and curvy and treacherous at times, but "oh, the places we've gone." Here's to our final year as Juniata students and a lifetime of being Juniata alumni. "Don't stop believin'," Class of 2006.

Greg,
Feed your strengths, and face your weaknesses. Talk through your thoughts, but take in everything. Learn to keep your cool while keeping an eye on the big picture. Be accountable for yourself, and be humble. Assume the best, and learn to relax. Life is an ever-changing journey. Enjoy the trip. We are so proud of you.
Love, Mom, Dad, and Caty

Erin,
We are all so very proud of you. You have worked very hard the last four years!! Congratulations on your graduation!! Best of luck in all your future endeavors!!
Love Always,
Dad, Mom and Nicholas

Troy,
"It is not the critic who counts....the credit belongs to the man who is actually in the arena, whose face is marred by dust and sweat and blood, who strives valiantly, who errs and comes up short again and again...but who knows the great enthusiasms, the great devotions, who spends himself for a worthy cause; who, at the best, knows in the end the triumph of high achievement, and at the worst, if he fails, at least he fails while daring greatly, so that his place shall never be with those cold and timid souls who knew neither victory nor defeat." - Theodore Roosevelt

Love, Mom & Dad

Michael,

What a stellar per
always look back

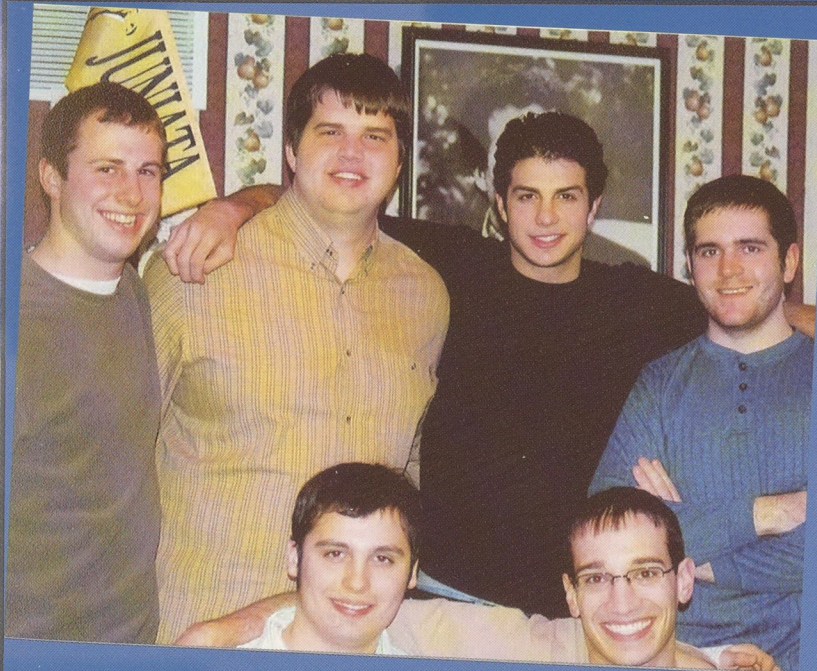

Mom, Dad and A

Anna,

You have been the focus of our lives and we (your entire family) rejoice with you as you now graduate. We have always had strong beliefs of your capabilities and strengths. Now, we stand in awe and amazement at all the things you have undertaken and accomplished. We are so proud of you. Always remember that you are as important to your family as your family is to you.

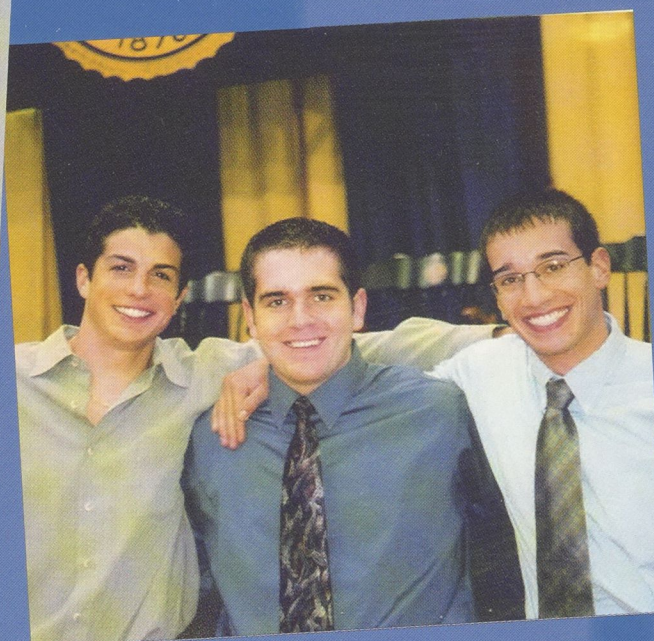

With all our love,
Mom, Dad and family

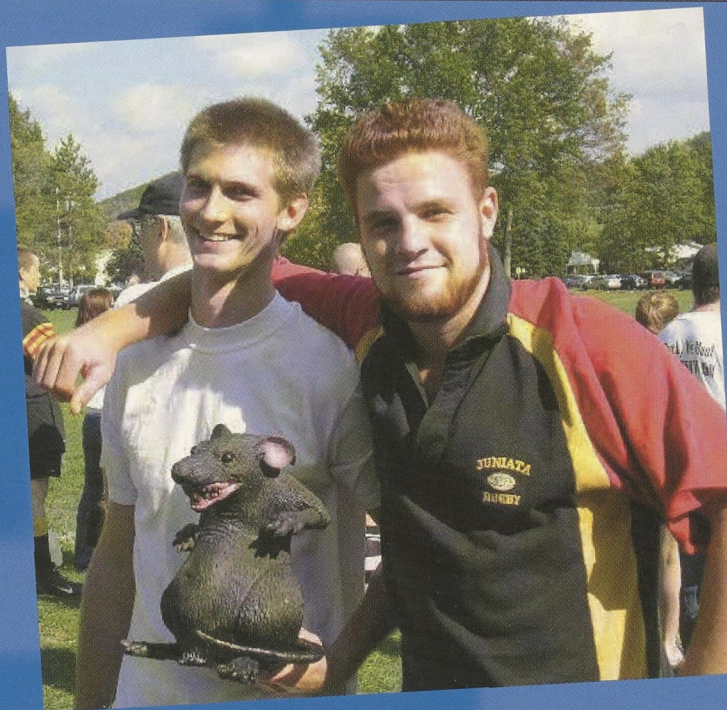

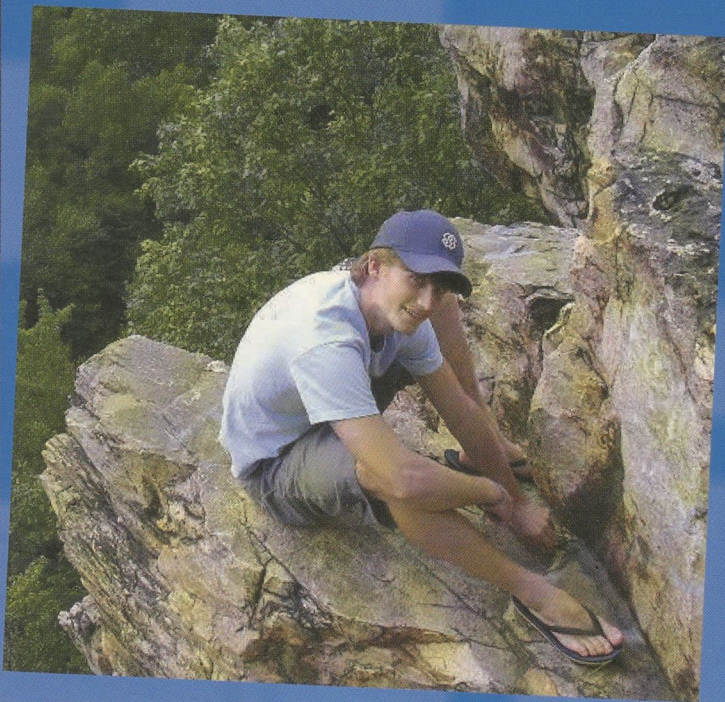

Michael,

What a stellar performance! You never cease to amaze us with your drive, talent and kind heart. Juniata was the perfect choice ~ You will always look back with special memories of classes, friends, running and fun. We couldn't be more proud of you.

Mom, Dad and Anthony

Rocks and Rats and so much more
like East and Athens and Skeletor.
Who knew in April 2002
just what Juniata would bring to you.

Andrew,

As Papa used to say, "I'm proud to be associated with you." Go out into that wider world, but always remember we love you, here at home.

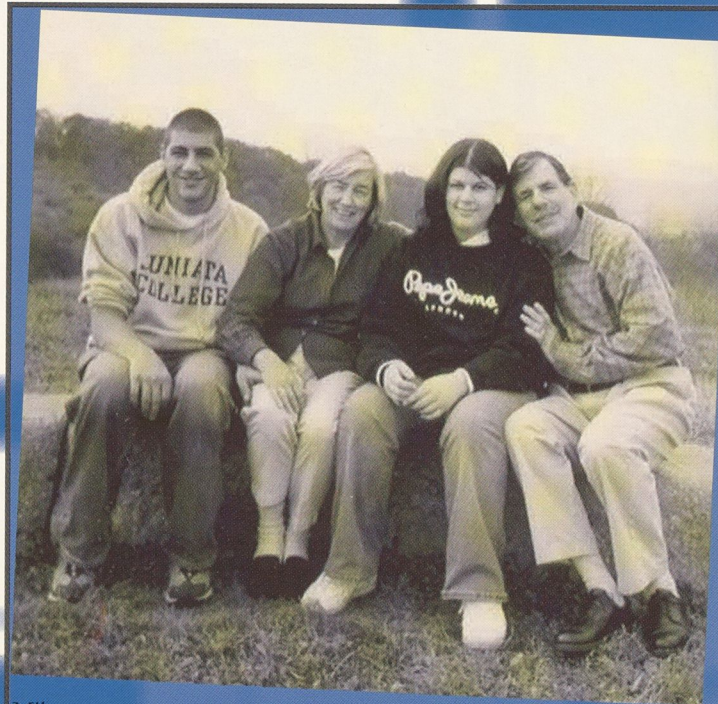

Love, Mom, Jim, Ryley and Lisa

Elizabeth,

We are so proud of you and all your successes in your four years at Juniata. We wish you a life filled with happiness and success.

Love,
Mom & Dad

Mike,

We are so proud of you! May you always receive as many blessings as you have given to us. We love you!

Mom, Emily, Grandma, Grandpa, Newman and Jerry too!

Laura,

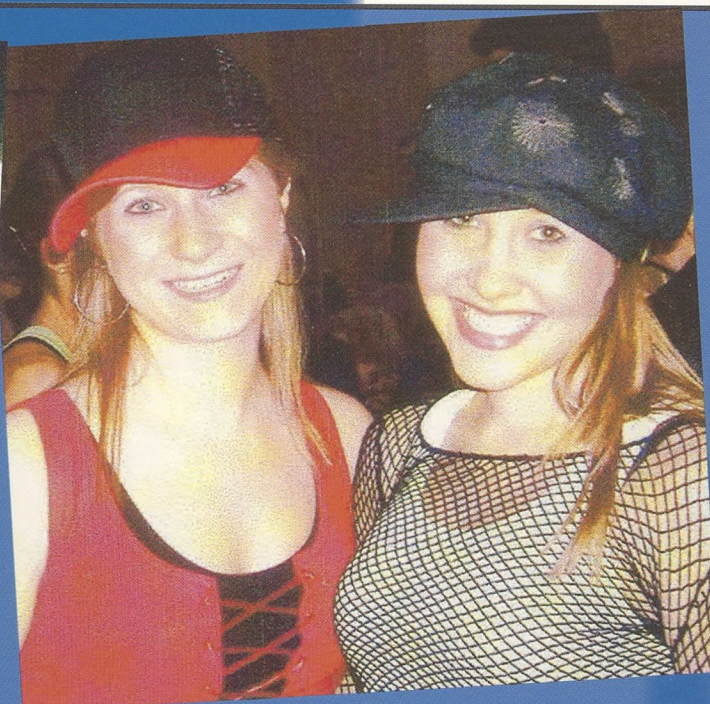

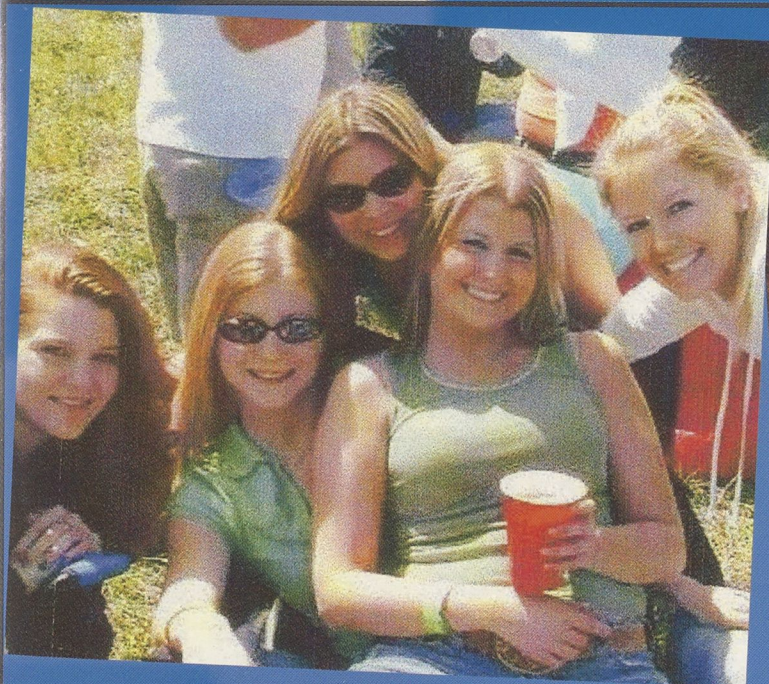

Some look at their life as a collection of successes in life. Love,
Dad, Mom and

Lauren,

You've "earned your stripes!" We have enjoyed your years at Juniata and your wonderful friends. Thank you for sharing your experiences with us. May your Juniata years allow you to soar like the field station osprey!

Love,
Mom & Dad

Laura,

Some look at the completion of undergraduate studies as the end of an outside force making them learn. Others feel life calling them to progress into graduate school. Your education has provided you with a set of tools that will stay with you always. Life is a collection of learning opportunities, some formal, and others evolving from the world around us. There isn't one path to success in life. Many years down the road you'll reflect on your journey and entertain the question of your own success.

Love,
Dad, Mom and Kristen

Heather,

We are so proud of you. We knew you could do it even when you didn't think you could. We hope that you always look back at your time at Juniata with fond memories of the great times and the wonderful friends you've made.

Kim,
Your life has had many journeys, some near, and some far. Graduation is the end of a journey, but the beginning of something even greater. Congratulations and Good Luck. We Love You.

Congratulations, Curtis!

You have blessed and enriched so many lives. May all your dreams come true and your adventures be fun!

Love,
Mom, Dad, Heather, Josh and Colson

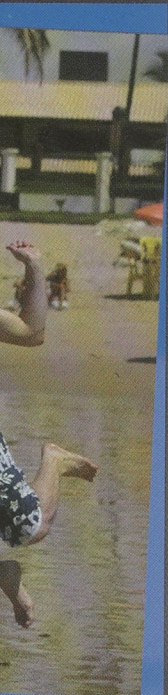

Laura,
Always treasure your memories of college life at Juniata,
along with the wonderful friends you have made along
the way. Follow your dreams as they are within your
grasp. We are so very proud of you!
Love,
Mom, David and Uncle Gery

Genna,

We are so proud of you and impressed by your accomplishments. The Juniata
education and life experiences have been instrumental in preparing you for the
future and have molded you into a remarkable young woman. Remember these
special times with a smile.

Rebecca,

It's so difficult to believe how fast these four years have passed. You have grown into a beautiful, mature young woman with an exciting future ahead of you. We couldn't be more proud. Love ya!

Dad, Mom and Mike

Nikki,

Here's to good friends and good times at Juniata! May your friends and memories last forever. We love you and are so proud of all you've achieved.

Love,
Mom & Dad

Em,

Congratulations on your latest accomplishment - your degree from Juniata College. You have worked very hard and should be extremely proud of the success that you have attained at JC.

We have watched you grow and mature during your time in college. We thank you for sharing your experiences and successes with us and look forward to many more as you go forward.

You continue to amaze us!

Love,

Mom, Dad & Mitch

Lori,

We're so proud to be your parents. You have realized your dream with a lot of hard work. What a blessing you have been.

Love,

Mom & Dad

Dearest Holly,

We are so very proud of you and so glad that you chose Juniata. The world awaits you!

Love,

Mom, Dad & Jesse

COLOPHON

"Coming into Focus" is the theme for the 88th volume of the Alfarata Yearbook. Book size is 8"x11" incorporating 192 pages on 100 lb. double coated enamel paper stock.

The custom cover was designed by Assistant Editor Beth Woodhouse and Copy Editor Rachelle Luther with assistance from Taylor Publishing's art department. The cover is Printed Lithocote with black, process blue and brilliant yellow #51. The custom endsheets were designed by Editor-in-Chief Anna Elias, Woodhouse and Luther, and were printed different front and back, using black ink.

Adobe InDesign CS was used for the layout of the 2006 yearbook. The fonts chosen--Cosmos, Acid Reflux, Kristin ITC, Sleepwalker, Dwellers Nice and Poplar Std--came from a library of fonts provided by Taylor Publishing and from various locations on the Internet. Body copy and captions appear in 10 to 11 pt. Garamond font. All pages were produced by staff members using digital images, photographs, Adobe Photoshop and PC computers.

Taylor Publishing Company, located in Dallas, Texas, published the Alfarata 2006. Ed Patrick, Jr. served as the Taylor representative. Professional portraits were taken by DaVor Photography located in Bensalem, PA. Jim Rainey served as the representative from DaVor.

The Alfarata staff wishes to thank Ed Patrick, Jr., Seana Litt, and Jim Rainey's staff for their hours of assistance in producing the book. We thank Juniata College's administration, faculty and staff for their contributions as well. Certainly, we thank the student body for being so memorable...and so photogenic.

Amy Mathur wishes to thank: this senior class, for being the greatest of all-time at Juniata College; Beth Woodhouse for being a logistical wizard who made sure that the wheels in this machine were oiled and turning; Rachelle Luther for being crafty with a comma; Hannah Rauterkus for being faster than her camera's flash whenever we needed the perfect picture; and finally, Anna Elias, the Empress of the Yearbook, for being more colorful than all the pages in this book combined.
